Attention: H.H. Klein

Gentlemen:

Subject: CDB Clearon Detergent Solution  
EPA Registration No. 230-73  
Your Amendment Dated September 24, 1986

The amendment referred to above, submitted in connection with registration under section 3(c)(7)(A) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is acceptable provided that you.

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
  - a. Change the ounces of CDB Clearon Detergent Solution so you will only have 100 ppm available chlorine maximum for sanitizing solution as stated in 21 CFR 178.1010 for triazinetriones.
  - b. Add to the label an instruction that the purchaser must be able to check chlorine level with an appropriate Chlorine Test Kit. Cannot fall below 50 ppm and not above 100 ppm. Add under Directions for Use; see enclosed sample label.
3. Submit two (2) copies of your final printed labeling before you release the product for shipment.

### STORAGE AND DISPOSAL:

Keep product dry in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat and open flame. Do not contaminate water, food or feed storage or disposal. Pesticide wastes are acutely hazardous. Improper disposal of solid pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes must be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at nearest EPA Regional Office for guidance. Do not reuse empty container. Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in a sanitary landfill by incineration if allowed by State and local authorities. Dispose of drum in the same manner. **EMERGENCY HANDLING:** In case of contamination or decomposition of product, do not reuse container. If possible, isolate container in open and well-ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area or bury in a safe place.

### PRECAUTIONARY STATEMENTS:

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS:**  
**DANGER:** Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Do not handle with bare hands. Wear goggles or face shield, use rubber gloves, and use only thoroughly clean, dry cloths when handling. Irritating to nose or throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

### CHEMICAL HAZARDS:

**DANGER:** Strong oxidizing agent. Use only clean, dry utensils. Contamination with moisture, dirt, organic matter or other chemicals (including pest chemicals) or any other foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire or explosion. Avoid any contact with flammable or burning material, such as a lit cigarette. Do not use in any warming device which has been used with any flammable or unapproved sanitizing compounds (e.g. calcium hypochlorite). Such use may cause fire or explosion.

### ENVIRONMENTAL HAZARD:

This product is toxic to fish. Do not contaminate lakes, ponds, or streams by cleaning equipment or disposal of waste.

Ingredient	
2,4,6-Trichloro-s-triazinetri- hydrate	5.6%
Ingredients	94.4%
Contains 2.2% available chlorine	
3.1	

**KEEP OUT OF REACH OF CHILDREN  
DANGER**

### FIRST AID (Practical Treatment):

**If Swallowed:** Feed large amounts of milk or water and induce vomiting. Call a physician immediately.  
**If on Skin:** Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.  
**If in Eyes:** Flush with cold water for at least 15 minutes. Get medical attention.  
**If Inhaled:** Remove person to fresh air. Get medical attention.

CDB Clearon Detergent Sanitizer is recommended for use on food processing equipment and including dairy and brewery equipment and is also recommended for use on dishes and

### DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Prepare a sanitizing solution by dissolving 4 oz. CDB Clearon Detergent Sanitizer per 1 gallon of water. This provides a solution containing 220 ppm of available chlorine respectively and rinse items prior to sanitizing. Then place dishes, equipment or utensils in solution for 2 minutes. Remove, ~~rinse with potable water~~ and flat surfaces, clean to remove gross filth and soil. Then spread the sanitizing solution and stand 2-5 minutes ~~and then rinse with potab~~. The same solution may be used in lead to immersion or spray type machines providing 2-minute contact time for sanitizing dishes, glass processing equipment and utensils. Clean items prior to sanitizing. After sanitizing step ~~with potable water and dry~~. The items are then for use.

The sanitizing solution should be used promptly. ~~This solution is allowed to stand and tests show the level of chlorine has not been maintained. Additional CDB Clearon Detergent Sanitizer should be added to maintain a minimum concentration of 100 ppm available chlorine.~~

### STORAGE AND DISPOSAL

Keep product dry in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat and open flame. Do not contaminate water, food or feed storage or disposal. Pesticide wastes are acutely hazardous. Improper disposal of solid pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes must be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at nearest EPA Regional Office for guidance. Do not reuse empty container. Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in a sanitary landfill by incineration if allowed by State and local authorities. Dispose of drum in the same manner. **EMERGENCY HANDLING:** In case of contamination or decomposition of product, do not reuse container. If possible, isolate container in open and well-ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area or bury in a safe place.
