### CHEMICAL HAZARDS

**DANGER:** Strong oxidizing agent. Use only clean, dry utensils. Contamination with moisture, dirt, organic matter or other chemicals (including pool chemicals) or any other foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire or explosion. Avoid any contact with flammable or burning material, or such as oil, heated oil, grease. CDB CLEARON decomposes at 400°-500°F with liberation of heat and harmful gases. Do not use CDB CLEARON in any chlorinating device which has been used with any inorganic or unstabilized chlorinating compounds, e.g., sodium hypochlorite. Such use may cause fire or explosion.

### STORAGE AND DISPOSAL

Keep product in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat and open flame. Do not contaminate water, food or feed by storage or disposal. Pesticide wastes are acutely hazardous. Follow disposal of excess pesticide spray mixture or residue in accordance with Federal law. If these wastes cannot be disposed of, use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. Do not reuse empty container. Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in a sanitary landfill or by incineration, if allowed by State and local authorities. Dispose of sludge in the same manner.

**EMERGENCY HANDLING:** In case of contamination or decomposition of product, do not reuse container. If possible, isolate container in open and well-ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved or approved area.

### ENVIRONMENTAL HAZARD:

This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.
