FIRST AID (Practical Treatment):

If Swallowed: Feed large amounts of milk or water and induce vomiting. Call a physician immediately.

On Skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.

If in Eyes: Flush with cold water for at least 15 minutes. Get medical attention.

If Inhaled: Remove person to fresh air. Get medical attention.

CHEMICAL HAZARDS:

Danger: Strong oxidizing agent. Use only clean, dry utensils. Contamination with moisture, dirt, organic matter or other chemicals (including pool chemicals) or any other foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire or explosion. Avoid any contact with flaming or burning material, such as a lighted cigarette. CDB-90 decomposes at 430°-480°F with liberation of heat and harmful gases. Do not use CDB-90 in any chlorinating device which has been used with any inorganic or unstabilized chlorinating compounds (e.g. calcium hypochlorite). Such use may cause fire or explosion.

ENVIRONMENTAL HAZARD:

This product is toxic to fish. Do not contaminate lakes, ponds, or streams by cleaning of equipment or disposal of wastes.
