BEST DOCUMENT AVAILABLE

Active Ingredient:
Trichloro-s- Triazinetrione-99.4%
(Trichloroisocyanuric Acid, Dry)
Inert Ingredients 0.6%
(Contains 89% Available Chlorine Minimum)
EPA Reg. No. 230- EPA Est. 9157-MI-01

KEEP OUT OF REACH OF CHILDREN

DANGER:

PRACTICAL TREATMENT: (FIRST AID): If swallowed feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately. Induce vomiting if large amounts have been ingested and patient is conscious.
If on skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.
If in eyes: Flush with cold water for at least 15 minutes. Get medical attention.

SEE ADDITIONAL PRECAUTIONS ON SIDE PANEL
For bulk shipment to Repackers or Reformulators of Disinfectants, Sanitizers, Fungicides, and Algicides. Repackers or Reformulators must apply for their own registration with EPA.

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

PHYSICAL AND CHEMICAL
STRONG OXIDIZING

Mix only with water. Do not add this product to containers containing remnants of other chemicals. Use may cause a violent reaction or explosion. Contains organic matter, or other chemical reaction, with liberation of hazardous gases or fumes. May cause generation of fire or explosion. Contamination or decomposition of contents may occur. If possible, empty container. If possible, flush with air or well ventilated volumes of water, if necessary.

STORAGE AND DISPOSAL: Store in tightly closed container in a cool dry, well ventilated area away from open flame. In case of fire, use dry chemical extinguisher, if possible, or water. Do not discard contents. Do not reuse or liner. Dispose of according to approved procedures under the Resource Conservation and Recovery Act.

PHYSICAL AND CHEMICAL HAZARDS
STRONG OXIDIZING AGENT:

Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire or explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

STORAGE AND DISPOSAL: Keep product dry in tightly closed container when not in use. Store in a cool dry, well ventilated area away from heat or open flame. In case of decomposition isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding. Do not reuse empty container or liner. Dispose of container and liner according to approved federal, state or local procedures under the Resource Conservation and Recovery Act.
