Philadelphia, PA 19103

Gentlemen:

Subject: CDB 90  
EPA Registration No. 230-85  
Submission of November 9, 1984

We are accepting this amendment under Section 162.9-1(b) of 40 CFR, for which no consideration of data is necessary. A copy of the amended label is enclosed bearing our acceptance stamp.

The word "Biocide" as part of the brand name must be changed to "Microbiocide".

Sincerely yours,

A. E. Castillo  
Product Manager (32)  
Disinfectants Branch  
Registration Division (TS-767C)

## Industrial Water Biocide Tablets

### PRECAUTIONARY STATEMENTS

#### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

##### DANGER:

Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

#### ENVIRONMENTAL HAZARDS:

This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES permit. For guidance contact your regional office of EPA.

#### PHYSICAL AND CHEMICAL HAZARDS:

Strong oxidizing agent. Mix only with water. Use clean utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, generation of hazardous gases and possible generation of fire explosion. In case of contamination or decomposition do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volume of water if necessary.

#### Active ingredient:

Trichloro-s-triazinetriene 99.4%

Inert Ingredients: 0.6%

Provides 89% available chlorine

EPA Reg. No. 230-85 EPA Est. No. 9157-MI-01

### KEEP OUT OF REACH OF CHILDREN DANGER

#### PRACTICAL TREATMENT: FIRST AID

If swallowed feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately.

If on skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists get medical attention.

If in eyes: Flush with cold water for at least 15 minutes. Get medical attention.

REVISED 8/84

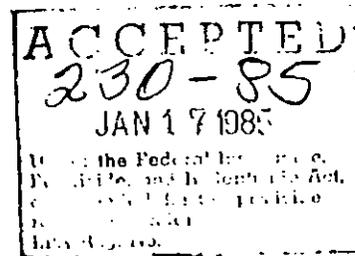

CDB-90 industrial water biocide is recommended for use in either industrial cooling water or in industrial water for washing air.

#### DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

#### Industrial Cooling Tower Water

For badly fouled systems, add CDB\*-90 tablets to produce 10-20 ppm of free available chlorine. One (1) 7 oz. tablet provides approximately 1 ppm per day to 12,700 gallons of well agitated water at pH 7.5 and 70°F. Repeat treatment each day until the system is visibly free of fungal and algal slime. This condition is usually indicated when a free available chlorine level of at least 1 ppm is found for 4 hours after treatment. When the system is under control, maintain the free available chlorine level at 2-4 ppm by adding the appropriate number of CDB\*-90 7 oz. tablets. Test kits are available for listing "free chlorine" and should be used for monitoring the system.
