Label Changes

The comments below indicate additional changed that must be made to the label coded "05.24.2010 (rev)" that was received by the Office of Pesticide Programs on May 27, 2010.

- 1. To assist consumers and others with identifying this product, the registration and establishment numbers should be moved to the front panel.
- 2. Product labels must identify the batch number of the container's contents.
- 3. The icons and illustrations referenced on the label do not appear on the revised labels submitted on May 24, 2010. Note that the product would be misbranded if any graphic representation on its label or other labeling conveys a false or misleading message or any information that conflicts with required label statements.
- 4. Delete the sentence "Volck Oil Spray also makes leaves shine!" from the optional "[HOW IT WORKS]" paragraph (of "[OPTION 1 USE DIRECTIONS]") near the top of page 5. The parenthetical sentence "(Do not use this product indoors)" may be retained. Use of this pesticide product carries with it the risk of phytotoxicity. Consequently, making the claim that use of the product "makes leaves shine" could increase the likelihood of phytotoxic events.

NOTE: Bold, italicized text is information for the reader and is not part of the label. [Bracketed information is optional text]. Text separated by / denotes and/or options.

Ortho[®] Volck Oil Spray

Alternate Brand Name(s):

t

[ORTHO Volck Oil Spray Dormant Season Insect Killer Concentrate] [ORTHO MAX Volck Oil Spray Dormant Season Insect Killer Concentrate]

[tree icon] For outdoor residential use only

Mineral Oil*		97.0%
OTHER INGREDIENTS		3.0%
	Total	100.0%
* Containe material sum distillation		

* Contains petroleum distillates

CAUTION

KEEP OUT OF REACH OF CHILDREN

See back / side / top / bottom [panel / label] for additional precautionary statements.

NET CONTENTS 1 Gal [Gallon] 3.78 L, [16 FL. OZ. (1 PT) 473 ml]

ACCEPTED With COMMENTS In EPA Letter Dated JUN 10 2010 Under the Federal Insecticide and Rodenticide Act, As amen pesticide Registered under EF 239 - 16	d:	
		*

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid inhalation of vapors or spray mist. Wash hands after use. Avoid eye contact. This material contains light hydrocarbon liquid and an aspiration hazard may exist.

FIRST AID

If swallowed: Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. Do not give any liquid to the person.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

Call a poison control center or doctor for further treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

Note to Physician: Emergency Information call 1-800-225-2883. This product contains petroleum distillate. This product may pose an aspiration pneumonia hazard.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

[DNS icon] Easy to apply / Can be applied with an Ortho Dial 'n Spray®, hose-end or tank sprayer.

For Residential Use Only

[Shake well before using.]

Tsp = teaspoon Tbs = tablespoon 3 teaspoons (tsp) = 1 Tablespoons (Tbs.) = ½ fl oz 2 Tbs = 1 fl oz

Product Facts (Read the DIRECTIONS FOR USE section before using this product.)

KILLS INSECTS

- Spider mites, scales, mealybugs, whiteflies, hemlock woolly adelgids & lacebugs
- Insect eggs
- Plus controls sooty mold

WHERE TO USE

• OUTDOORS on conifers, roses, shrubs & trees

AMOUNT TO USE

- Growing Season: 2 ½ fl oz (5 Tbs.) per gallon of water
- Dormant Season: 5 1/3 fl oz (10 2/3 Tbs.) per gallon of water

Questions, Comments or Medical Information Call 1-800-225-2883 [phone icon] [www.ortho.com] [computer icon]

¹ Including codling moth, gypsy moth, spider mite & tent caterpillar eggs

² Including apples, apricots, cherries, peaches, pears and plums. Citrus trees (grapefruits, lemons, limes, oranges & tangerines) may only be sprayed during the growing season.

DIRECTIONS FOR USE

It is violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application. Do not allow people or pets to enter the treated area until after sprays have dried.

[OPTION 1 USE DIRECTIONS]

Shake well before using. Spray all parts of plants thoroughly. Make new dilution for each use.

MIXING INSTRUCTIONS

DURING GROWING SEASON [tree with leaves illustration]

Amount to Use: 2 ½ fl oz (5 Tbs.) per gallon of water [DNS icon] When using Ortho Dial 'n Spray® Applicator: Set dial to 2 ½ oz. Pour product into sprayer to fill jar one-quarter to one-half full. DO NOT add water. After spraying, unused product can be poured back into its original container. DURING DORMANT SEASON [deciduous tree illustration]

Amount to Use: 5 1/3 fl oz (10 2/3 Tbs.) per gallon of water [DNS icon] When using Ortho Dial 'n Spray® Applicator: Set dial to 5 1/3 oz. Pour product into sprayer to fill jar one-quarter full. DO NOT add water. After spraying, unused product can be poured back into its original container.

HOW TO APPLY / USE

- Use a tank, Ortho Dial 'n Spray® Applicator or other hose-end sprayer.
- Spray to uniformly cover all upper and lower leaf surfaces, stems, branches, and trunk.

WHEN TO APPLY / USE

- Spray when air is calm to avoid drift.
- Spray when temperature is above 40^oF but below 85^oF.
- If temperature is expected to exceed 85^oF spray in early morning or late afternoon when it is cooler.

[During] [the] Growing Season [deciduous tree with leaves illustration/icon]

- Spray when insects /are present/ or / feeding injury/ is first noticed.
- Spray up to 4 times, waiting 2 weeks between each application.

Additional Tips

- Growing season is year-round for some shrubs and trees, such as citrus.
- Spray azaleas and camellias between spring and fall blooms.
- During the growing season do not apply to foliage within 30 days before or after using products containing sulfur, lime-sulfur or captan.

[During] [the] Dormant Season [deciduous tree illustration/icon]

Spray dormant shrubs and trees once in late winter or early spring.

Additional Tips

- Roses and other deciduous shrubs and trees are dormant after they shed all of their leaves.
- Conifers do not shed all of their needles but are usually dormant after the first deep frost.

WHEN TO HARVEST

Listed fruit trees may be sprayed up to the day of harvest.

IMPORTANT

DO NOT use on maidenhair ferns, red maples, Japanese maples or non-woody plants unless otherwise specified. Volck® Oil Spray may cause discoloration to blue spruce. Do not use VOLCK® Oil Spray on foliage with 30 days before or after using sulfur. Avoid spraying when temperature is excessively high or when plants are suffering from drought. Oil sprays should not be applied to broadleaved evergreens or palms when freezing or near freezing temperatures may be expected.

[HOW IT WORKS]

[Kills insects by suffocating multiple stages of mealybugs, scales, spider mites, tent caterpillars, whiteflies and other common insects. This promotes long-term control of insects in dormant and growing seasons without frequent applications. Volck Oil Spray also makes leaves shine! (Do not use this product indoors)]

DORMANT USE

TO KILL THESE INSECTS:/ INSECTS CONTROLLED: Scale insects, Red Spider Mites, and Mealybugs

[FOR] [USE] ON THESE PLANTS / WHERE TO USE: Dormant Shrubs, Evergreens, Woody Plants, Fruit Trees (Apples, Plums, Pear, Apricots, Peaches, Cherries) and Shade Trees USE THIS AMOUNT: Use 5 1/3 fl oz (10 2/3 Tbs) per gallon of water.
