DIRECTIONS FOR USE

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS

DIRECTIONS

DIRECTIONS:
ORTHO Tomato Vegetable Dust may be used as a dust or spray for fast results. Dust or spray heavily on top of and under leaves when temperature is low and air still. Apply so all exposed parts of plants are contacted especially upper and lower leaf surfaces.

As a Spray: Mix 3 to 6 Tablespoons in a little water to make a thin paste; add 1 gallon water and agitate during application. Make new solution for each use.

For Insect Control: Apply when insects first appear and repeat at 5 to 10 day intervals or as necessary.

For Broodmare Control: Start program of dusting as soon as fly age appears. Repeat at 10-12 week intervals for best protection. Can be used on Beers up to within 3 days of harvest on Raspberries within 14 days of harvest on Potatoes within 1 day of harvest and on other staked food crops, up to the 3 days of harvest. Remove dust from food crops by washing before use.
