ORTHO Tomato Vegetable Dust

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Causes eye irritation. Harmful if swallowed or inhaled. May cause allergic skin reactions. Avoid contact with eyes, skin and clothing. Avoid inhalation of dust or spray. **STATEMENT OF PRACTICAL TREATMENT:** In case of eye contact, wash eyes immediately with fresh water for 15 minutes. See a doctor if irritation persists. If swallowed, contact physician, poison control center, or emergency clinic before attempting to vomit. Give water or milk to drink and induce vomiting by touching back of throat with finger, or by administering syrup of ipecac. Do not induce vomiting or give anything by mouth to an unconscious person. If medical advice cannot be obtained, take person and a copy of the label or technical bulletin to the nearest emergency treatment facility. Wash hands after use. **Note to Physicians:** Emergency Information - Call 239-565-5555.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not apply directly to water or wetlands (swamps, bogs, marshes and potholes). Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water by cleaning of equipment or disposal of wastes. This product is toxic to bees and should not be applied when bees are actively visiting the area.

ENDANGERED SPECIES RESTRICTIONS: The use of this product in a manner which may harm endangered species or adversely modify their habitat is prohibited by Federal law. The following endangered species and the general location of their habitats have been identified by county:

Slackwater Darter	Alabama (Lauderdale, Limestone and Madison)
Pecos gambusia	Tennessee (Lawrence and Wayne)
Freshwater Mussels	New Mexico (Chaves and Eddy)
Commanche Springs Pupfish	Texas (Reeves, Jeff Davis and Pecos)
	Tennessee (Hancock, Claiborne, Hawkins and Sullivan)
	Virginia (Smith, Scott, Lee, Washington and Grayson)
	Texas (Reeves and Jeff Davis)

Prior to use of this product in the above counties you must determine that these species are not listed in, or immediately adjacent to, the areas to be treated with captan. Consult your regional U.S. Fish and Wildlife Service Office (Endangered Species Specialist) or State Wildlife Agency if there is any doubt as to the areas where the outdoor use of captan is prohibited.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.** Do not use on synthetic rubber, vinyl or plastic gloves. Do not use when using outdoors. Wear long pants and long-sleeved shirt and apply with the wind to your back. Wash nondisposable gloves thoroughly with soap and water before removing.

Clothing worn while handling this product must be laundered separately from other clothing before reusing. **Refillable Duster:** Remove top closure to refill. **ORTHO Tomato Vegetable Dust:** A multi-purpose garden dust, is especially formulated for the control of many insects and diseases on vegetables.

Do not rotate a lower treated crop with crops other than those with registered captan uses. Do not allow persons to enter treated areas within 4 days following application unless protective clothing is worn. Do not use on crops until 14 days after application.

DIRECTIONS: To apply just aqueous. Tap bottom tightly and shake before first use. For best results, dust in early morning or late evening when the temperature is low and the air is still. Apply dust so all exposed parts of plants are contacted, especially upper and lower leaf surfaces. Can be used on Beans up to within 3 days of harvest, on Raspberries within 14 days of harvest, on Potatoes within 1 day of harvest, and on other listed food crops up to within 7 days of harvest. Remove residues from food crops by washing before use.

For Insect Control: Apply when insects first appear and repeat at 5 to 10 day intervals or as necessary. **For Disease Control:** Start program of dusting as soon as foliage appears. Repeat at 1 to 2 week intervals for best protection.

PLANTS	INSECTS	DISEASES
Tomatoes	Aphids, Thrips, Leafhoppers, Flea Beetles, Blister Beetles, Tomato Fruitworm, Japanese Beetle, Fleahoppers, Colorado Potato Beetles, Cucumber Beetles, Mexican Bean Beetles	Early & Late Blight, Septoria Leaf Spot, Anthracnose, Alternaria, Phomopsis, Cercospora

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Causes eye irritation. Harmful if swallowed or inhaled. May cause allergic skin reactions. Avoid contact with eyes, skin and clothing. Avoid inhalation of dust or spray. **STATEMENT OF PRACTICAL TREATMENT:** In case of eye contact, wash eyes immediately with fresh water for 15 minutes. See a doctor if irritation persists. If swallowed contact physician, poison control center or emergency clinic for immediate guidance. Give water or milk to drink and induce vomiting by touching back of throat with finger or by administering syrup of ipecac. Do not induce vomiting or give anything by mouth to an unconscious person. If medical advice cannot be obtained, take person and a copy of the label or technical bulletin to the nearest emergency treatment facility. Wash hands after use. **Note to Physicians:** Emergency information call 1-800-235-3137.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not apply directly to water or wetlands (swamps, bogs, marshes and potholes). Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water by cleaning of equipment or disposal of wastes. This product is toxic to bees and should not be applied when bees are actively visiting the area.

DANGEROUS SPECIES RESTRICTIONS: The use of this product in a manner which may harm endangered species or adversely modify their habitat is prohibited by Federal law. The following endangered species and the general location of their habitats have been identified by county.

Slackwater Darter	Alabama (Lauderdale, Limestone and Madison)
Pecos gambusia	Tennessee (Lawrence and Wayne)
Freshwater Mussels	New Mexico (Chaves and Eddy)
Commonche Springs Pupfish	Texas (Reeves, Jeff Davis and Pecos)
	Tennessee (Hancock, Claiborne, Hawkins and Sullivan)
	Virginia (Smith, Scott, Lee, Washington and Grayson)
	Texas (Reeves and Jeff Davis)

Prior to use of this product in the above counties you must determine that these species are not located in, or immediately adjacent to, the area to be treated with captan. Consult your regional U.S. Fish and Wildlife Service office (Endangered Species Specialist) or State Wildlife Agency if there is any doubt as to the areas where the outdoor use of captan is prohibited.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.

Wear natural or synthetic rubber, waxy, or plastic gloves impermeable to captan when using outdoors. Wear long pants and long-sleeved shirt and apply with the wind to your back. Wash nondisposable gloves thoroughly with soap and water before removing.

Clothing worn while handling this product must be laundered separately from other clothing before reusing.

Refillable Duster: Remove top closure to refill.

ORTHO Tomato Vegetable Dust, a multi-purpose garden dust, is especially formulated for the control of many insects and diseases on vegetables.

Do not rotate a lower treated crop with crops of or other than those with registered captan uses.

Do not allow persons to enter treated areas within 4 days following application unless protective clothing is worn.

Conspicuously post readily information at site of application.

DIRECTIONS: To apply just squeeze. Tap bottom lightly and shake before first use.

For best results, dust in early morning or late evening when the temperature is low and the air is still. Apply dust so all exposed parts of plants are contacted, especially upper and lower leaf surfaces.

Can be used on Beans up to within 3 days of harvest, on Raspberries within 14 days of harvest, on Potatoes within 1 day of harvest, and on other listed food crops up to within 7 days of harvest. Remove residues from food crops by washing before use.

For Insect Control: Apply when insects first appear and repeat at 5 to 10 day intervals or as necessary.

For Disease Control: Start program of dusting as soon as foliage appears. Repeat at 1 to 2 week intervals for best protection.
