Mr. James Wallace  
Director, Regulatory Affairs  
The Scotts Company d/b/a The Ortho Group  
P.O. Box 190  
Marysville, OH 43040  

Dear Mr. Wallace:

Subject: Submission of amended labeling per Use Deletion Agency Guidance and revised May 2009 Malathion RED Label Table  
ORTHO® MALATHION 50 Insect Spray  
EPA Registration No. 239-739  
OPP Decision No. 403133  
Label amendments dated 2/19/09 & 5/14/09 and CRP submission dated 10/20/08

The proposed labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is acceptable with the following comments:

- On page 1 of the label under the “Active Ingredient Statement” revise “Other Ingredients” to read “Inert Ingredients.”

- On page 7 of the label under “Nuisance Insects/Pests – Outdoor Only” revise “Homes (Outdoor Only)” to read “Exterior House Foundation.”

- On page 7 of the label under “Nuisance Insects/Pests – Outdoor Only” delete “Silverfish” from the “Insect” column.

Approval of this labeling amendment does not constitute reregistration for this product. Product reregistration is currently pending and future label amendments and or additional data may be required.
Please submit two copies of your final printed labeling before you release the product for shipment. A stamped copy is enclosed for your records. If you have any questions, please contact Marianne Lewis at (703) 308-8043 or lewis.marianne@epa.gov.

Regards,

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

WARNING

Causes substantial but temporary eye injury. Harmful if swallowed or absorbed through skin. Do not get in eyes. Avoid contact with skin or clothing. Avoid breathing vapors or spray mist. Wear protective eyewear (safety glasses). Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If swallowed: Immediately call a poison control center or doctor. Do not induce vomiting unless told to by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

Note to Physicians: Emergency Information: Call 1-800-454-2333. Contains petroleum distillate. May pose an aspiration pneumonia hazard. Malathion is a cholinesterase inhibitor. If signs and symptoms of cholinesterase inhibition develop, atropine sulfate is antidotal; 2-PAM (PROTOPAM) may also be given in conjunction with atropine but should not be used alone.

Do not use food utensils such as teaspoons and tablespoons for food purposes after use with pesticides.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish, aquatic invertebrates, and aquatic life stages of amphibians. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems. Drift and runoff may be hazardous to aquatic organisms in areas near the application site. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

PHYSICAL OR CHEMICAL HAZARDS: Combustible. Do not use or store near heat or open flame.
NOTE:  
*Bold, italicized text is information for the reader and is not part of the label.*  
[Bracketed information is optional text. Text separated by / denotes and/or options.]

[Press to Reseal]

Kills insects [Pests Controlled]: Aphids, Bagworms, Boxelder Bugs, Black Scale, Purple Scale, Yellow Scale, Florida Red Scale, Cabbage Looper, Codling Moth, Cucumber Beetles, Fourlined leaf bugs, Grape leafhopper, Japanese beetle adults, Lacebugs, Mealybugs, Mosquitoes, Pear psyllid, Red banded leafroller, Strawberry leafroller, Spittlebug, Red Spider Mite, Rose leafhoppers, Spruce mites, Scales, Tent Caterpillar, Tarnished plant bug, Thrips, Whiteflies, Hemlock Woolly Adelgid, and other listed insects /pests. [See complete list inside.]

Easy to apply with an Ortho® Dial ‘N Spray® or tank sprayer.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**DO NOT APPLY THIS PRODUCT IN A WAY THAT WILL CONTACT ANY PERSON OR PET, EITHER DIRECTLY OR THROUGH DRIFT. KEEP PEOPLE AND PETS OUT OF THE AREA DURING APPLICATION.**

[Reentry icon] **DO NOT ALLOW PEOPLE OR PETS TO ENTER TREATED AREA UNTIL SPRAYS HAVE DRIED.**

tsp. = teaspoon  
Tbs. = Tablespoon  
3 teaspoons (tsp) = 1 Tablespoon (Tbs.) = ½ fl oz

When using Ortho® Dial 'N Spray®
1. Set dial to the setting indicated in the use directions for your specific application.  
2. Pour product into sprayer to fill jar one-quarter to one-half full.  
3. After spraying, unused product must be poured back into its original container.

When using a tank sprayer
1. Blend appropriate amount of Ortho® Malathion 50 Insect Spray with appropriate amount of water following the dilution instructions for each site-pest combination listed below.  
2. Operate sprayer by following the manufacturer's instructions. Spray as directed below.

HOW TO APPLY

- Use an Ortho® Dial ‘N Spray® or tank sprayer.
- Apply as a coarse spray to the lower outside foundation of house, patios and garbage cans; under porches and shrubbery; along fences; to firewood piles; and ornamental vegetation where mosquitoes may rest.
- **Specific directions for Clover Mite:** Spray a 2-ft wide strip along side of house.

DO NOT USE INSIDE THE HOME. DO NOT USE ON ANIMALS.

WHEN TO APPLY

- Apply as necessary to control listed insects; waiting at least 7 days between each application.
Storage and Disposal

Do not contaminate water, food or feed by storage and disposal.

**PESTICIDE STORAGE:** Keep pesticide in original container. Do not put concentrate or dilute into food or drink containers. Store in a cool, dry place, preferably in a locked storage area. Do not store diluted spray. Do not contaminate with other pesticides or fertilizers. This product should never be heated above 55°C (131°F), and should not be stored for long periods of time at a temperature in excess of 25°C (77°F).

**PESTICIDE DISPOSAL if empty:** Non-refillable [container]. Do not reuse or refill this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**NOTICE:** To the extent consistent with applicable law buyer assumes all risks of use, storage or handling of this product not in accordance with directions
