

# ORTHO

## Soybean Seed Protectant

(FUNGICIDE)

Contains 15% of Non-oil Lubricant

Active Ingredients	By Wt.
Captan .....	23.6%
Related Derivatives .....	1.4%
Inert Ingredients .....	75.0%
* N-[ (trichloromethyl) thio]-4-cyclohexene-1,2-dicarboximide.	

**KEEP OUT OF REACH OF CHILDREN  
WARNING**

SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

**NET WEIGHT 50 POUNDS**

### DIRECTIONS

For improved mixing of product with seed, the following procedure is suggested: Fill planter box only half full of seed, add half the required amount of ORTHO Soybean Seed Protectant and mix thoroughly with a stick. Then put remainder of seed in planter box and add the rest of the required ORTHO Soybean Seed Protectant, mixing thoroughly again. Good results are also obtained by premixing seed with ORTHO Soybean Seed Protectant in a suitable container, then pouring treated seed into planter box.

**SOYBEANS:** Use ORTHO Soybean Seed Protectant as a planter box treatment at the rate of 4 ounces per bushel or 7 ounces to 100 lbs. seed.

**PEANUTS:** Use ORTHO Soybean Seed Protectant as a planter box treatment at the rate of 2 to 4 ounces per bushel or 4 to 6 ounces per 100 lbs. seed.

ORTHO Soybean Seed Protectant is a specifically designed formulation of ORTHOCIDE for the treatment of soybean and peanut seeds. Seed protection is afforded sound and/or mechanically injured seed against seed and soil borne diseases such as seedling blights, damping-off and seed decay organisms at planting time.

Designed specifically for seed protection at planting time, ORTHO Soybean Seed Protectant requires no additional seed handling to have seed treated, thus lowers the percentage of cracked or "split" seed planted. At recommended dosage rates, this product assures adequate seed coverage and allows any excess to flow down with the seed into the seed furrow thus affording maximum protection. Can be used on previously treated seed.

Do not feed treated seed to animals. Do not use treated seed for human consumption. Seeds treated with ORTHO Soybean Seed Protectant, sold or shipped as feed or foodstuffs may be considered adulterated under state and federal laws. Treated seed must be labeled as follows: "TREATED SEED. DO NOT USE FOR FOOD, FEED OR OIL."

**CONDITIONS OF SALE:** 1. Chevron Chemical Company (Chevron) warrants that this material conforms to the chemical description on the label and is reasonably fit for use as directed hereon. Chevron neither makes, nor authorizes any agent or representative to make, any other warranty of FITNESS or of MERCHANTABILITY, guarantee or representation, express or implied, concerning this material.

2. Critical and unforeseeable factors beyond Chevron's control prevent it from eliminating risks in connection with the use of chemicals. Such risks include, but are not limited to, damage to plants and crops to which the material is applied, lack of complete control, and damage caused by drift to other plants or crops. Such risks occur even though the product is reasonably fit for the uses stated hereon and even though label directions are followed. Buyer and user acknowledge and assume all risks and liability (except those assumed by Chevron under 1 above) resulting from handling, storage, and use of this material.
