DIBROM[®] 14 Concentrate

[INSECTICIDE]

NET CONTENTS

LIQUID

Active Ingredient By Wt.
Naled* 85%
Inert Ingredients 15%
* 1,2-dibromo-2,2-dichloroethyl dimethyl phosphate
Contains 14 pounds technical naled per gallon equivalent
to 12.6 pounds naled.

U. S. Pat. No. 2,971,882

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH CAUTIONS, WARNINGS AND DIRECTIONS, AND WITH APPLICABLE STATE AND FEDERAL REGULATIONS.

KEEP PESTICIDE IN ORIGINAL CONTAINER. DO NOT PUT CONCENTRATE OR DILUTE INTO FOOD OR DRINK CONTAINERS. WASH AND DESTROY CONTAINER WHEN EMPTY. NEVER RE-USE. ORTHO DIBROM 14 Concentrate is a special formulation for use undiluted or diluted in diesel oil to be applied for the control of mosquitoes, houseflies and certain other nuisance insects. This product cannot be diluted with water. If crystallization occurs, dilute with 20 parts by volume of diesel oil.

SPECIAL MIXING DIRECTIONS: The use of ORTHO DIBROM 14 Concentrate and some grades of diesel fuel may result in precipitates which cause nozzle clogging and operational difficulties. To prevent this, ORTHO DIBROM 14 Concentrate should be used with ORTHO Additive. See ORTHO Additive label for recommended quantities.

DIRECTIONS

ADULT MOSQUITO CONTROL in Residential Areas, Municipalities, Tidal Marshes, Swamps, Woodlands, Livestock Pastures, Feed Lots and Pastures including Dairy Cattle. It is not necessary to avoid farm buildings, dairy barns, feed or forage areas.

ULTRA LOW VOLUME AIRCRAFT APPLICATION: Apply 1/2 to 1 fluid ounce of undiluted product per acre. Use the 1 ounce rate where heavy vegetation exists, i.e., woodlands, etc. Aircraft should be equipped with a noncorrosive spray system. Use only

READ THE LABEL

KEEP OUT OF REACH OF CHILDREN.

CAUTION: Concentrate may cause skin damage. Do not get in eyes, on skin or on clothing. Use waterproof gloves and face shield or goggles when handling concentrate. Harmful if swallowed. In case of contact, immediately remove contaminated clothing and flush skin or eyes with plenty of water; for eyes, get medical attention. Avoid contamination of feed, foodstuffs and drinking water. Avoid breathing spray mist. DO NOT USE POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME. Concentrate may corrode metal spray or mixing equipment. Flush all equipment thoroughly with aromatic solvent after use. Rinse equipment and container, and dispose of wastes by burying in non-crop land, away from water supplies. Containers should be disposed of by puncturing holes in them and burying with wastes. This product is toxic to fish. Do not apply when water conditions favor drift or when streams are running. This product is highly toxic to bees and should not be applied on or near blooming crops or hives. Do not use if sprayed from aircraft. Do not use if sprayed from aircraft.

spray nozzles that will deliver 30 to 80 micron size droplets. Large droplets may cause spotting of certain automobile paint finishes. Spray during periods when wind is 5 mph or less and when thermal activity is low.

AIRCRAFT APPLICATION: Dilute 50 to 100 ounces (1.6 to 3.1 quarts) ORTHO DIBROM 14 Concentrate in 100 gals. No. 2 Fuel Oil or diesel oil. Apply at the rate of 1 gal. diluted material per acre. This is equivalent to 0.05 to .1 lb. actual DIBROM per acre.

FOG APPLICATION: Dilute 3.1 quarts (100 fl. ozs.) to 99 gals. No. 2 Fuel Oil or diesel oil or 10 ozs. per 10 gals. oil. Apply at the rate of 40 gals. per hour output, at an average vehicle speed of 5 miles per hour, applying swath 300 to 400 feet wide.

HOUSEFLIES, GNATS, CERTAIN OTHER NUISANCE INSECTS SUCH AS FLYING MOTHS, CRANEFLIES, MIDGES, ADULT STABLE FLIES (Dog Flies) in Residential Areas, Municipalities, Marshes, Swamps, Woodlands, Livestock Pastures, Feed Lots and Pastures including dairy cattle. It is not necessary to avoid farm buildings, dairy barns, feed or forage areas. **FOG APPLICATION:** Dilute 1 gal. to 99 gals. of No. 2 Fuel Oil or diesel oil or 10 ozs. per 10 gals. oil. Apply at rate of 40 gals. per hour output at an average vehicle speed of 5 miles per hour, applying swath 300 to 400 feet wide. **AIRCRAFT APPLICATION:** Dilute 100 to 230 fl. ozs. No. 2 Fuel Oil or diesel oil. Smaller insects such as Gnats and Midges: 1/2 to 1 gal. Houseflies, Flying Moths: 1 to 2 gals. Apply 1 gal. diluted material per acre. This is equivalent to 0.1 to 0.2 lb. actual DIBROM per acre.

CONDITIONS OF SALE: 1. Chevron Chemical Company (Chevron) warrants that the material conforms to the chemical description on the label and is suitable for use as directed by the Chevron label. Chevron makes no warranties or representations as to the effectiveness of the material, or FITNESS or MERCHANTABILITY, guarantee or representation, express or implied, in obtaining this material.

2. Chemical and non-chemical hazards beyond Chevron's control prevent it from eliminating or reducing connection with the use of chemicals. Such risks include, but are not limited to, damage to plants and crops to which the material is applied, loss or complete control, and damage caused by drift to other plants or crops. Such risks occur even though the product is reasonably safe for the uses stated herein, and even though label directions are followed. Buyer and user acknowledge and assume all risks and liability (except those assumed by Chevron under 1 above) resulting from handling, storage, and use of this material.
