

ORTHO

ORTHO-KLOR' 74 Chlordane Spray

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS & DOMESTIC ANIMALS

DANGER

Harmful if swallowed. May be fatal if absorbed through skin. Corrosive. Causes skin damage. Do not get on skin or clothing. Wear rubber gloves when handling. Avoid contact with eyes. Avoid breathing of vapors or spray mist. Avoid contamination of feed or foodstuffs. Wash hands after use. Keep children and pets out of treated areas until these areas are dry.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Drink one or two glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention immediately. **If Inhaled:** Remove victim to fresh air and apply respiration if indicated. **If On Skin:** Wash promptly with soap and water. Rinse thoroughly. **If In Eyes:** Rinse eyes for at least 15 minutes with water and call a physician immediately.
Note to Physicians: Emergency Information — call (415) 233-3737.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Birds and other wildlife in treated areas may be killed. Keep out of any body of water. Do not apply when weather conditions favor drift from areas treated. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS

Do not use, pour, spill or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS.

TERMITES — Use 2 Tablespoonfuls (1 oz.) per gallon of water to treat 2 linear feet of soil trench around the foundation of the house, not more than 15 to 18 inches deep. For trenches over 18 inches deep and up to 30 inches deep around the house foundation, apply 2 Tablespoonfuls (1 oz.) per gallon of water to treat 1 linear foot of trench. Treatment is fast and easy with an ORTHO Lawn Sprayer. Where the trench is no deeper than 18 inches, add 16 oz. of ORTHO-KLOR 74 Chlordane Spray to the sprayer jar, fill jar with water and mix thoroughly, attach to sprayer and thoroughly soak 32 linear feet of foundation wall and soil area as close to foundation as possible, around each of the piers or any plumbing in contact with the soil and porch fills, etc. under houses. For compacted soils, trench along foundation walls and treat the wall, the trench and the backfill soil. In heavy clay or muck soils, a double dosage is recommended. Be careful to have adequate ventilation when treating areas under structures. The objective is to establish a treated soil barrier which will prevent termite entry. Other critical areas may also require treatment. It is suggested that you consult the State Extension Service for advice.

STORAGE AND DISPOSAL

Keep pesticide in original container. Do not put concentrate or dilute into food or drink containers. Do not store diluted spray. Make a new dilution for each use. Do not reuse empty container. Wrap container and put in trash collection.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
