DIRECTIONS

ORTHO Soil Treater 3X is a combination fungicide product to be used in the planter box for control of certain soil diseases. It is formulated to be used as a dry treatment.

PLANTER BOX APPLICATION - For Control of Pythium and Rhizoctonia, Seed and Seedling Rots. Apply to seed through planter box at time of planting. This treatment can be used in addition to regular seed treatment. If necessary, recalibrate seed planting rate after adding this product to the planter box.

COTTON SEED - Mechanical or Acid delinted Seed - Use 1 lb. per acre.

SOYBEANS - Use 3 ozs. per bushel of seed.

SORGHUM - Use 4 ozs. per bushel of seed.

WHEAT - Use 2½ ozs. per bushel of seed.

CONDITIONS OF SALE: 1. Chevron Chemical Company (Chevron) warrants that this material conforms to the chemical description on the label and is reasonably fit for use as directed hereon. Chevron neither makes, nor authorizes any agent or representative to make, any other warranty of FITNESS or of MERCHANTABILITY, guarantee or representation, express or implied, concerning this material. 2. Critical and unforeseeable factors beyond Chevron's control prevent it from eliminating all risks in connection with the use of chemicals. Such risks include, but are not limited to, damage to plants and crops to which the material is applied, lack of complete control, and damage caused by drift to other plants or crops. Such risks occur even though the product is reasonably fit for the uses stated hereon and even though label directions are followed. Buyer and user acknowledge and assume all risks and liability (except those assumed by Chevron under 1 above) resulting from handling, storage, and use of this material.

NOTE: This product is sold by weight and package is full when packed, but due to fluid nature this material is inclined to settle.
