CONCENTRATE OR DILUTANT. KEEP IN ORIGINAL CONTAINER.
PRAIRIE PROTECT Spray is labeled for control of the following
insects and mites on citrus: Black Scale, Citrus Scale, Florida
Red Scale, Green Scale, Purple Scale, Snow Scale, Yellow Scale,
Whitefly, Aphids, Citrus Rust Mite, Citrus Red Mite and Texas
Citrus Mite.

DIRECTIONS

DIRECTIONS

Thorough coverage of trunks and lower and upper leaf surfaces is necessary to control insects where such coverage is a problem; it is important that "true" umbels and "pans" be thoroughly sprayed. Do not apply when the trees are in a drought stress.

Apply ORTHO Citrus Insect Spray at a rate of 1 Tablespoonful (1/2 oz) per gallon of water (3 pints per 100 parts of water). For best results, use an ORTHO Sprayer. For more information, see a tank label.

ORANGES GRAPEFRUIT TANGELOS (1) Not repeat apply to
fruiting the 50000. May be a good idea to be safe.

TANGERINES Do not apply to the following seeds: Citrus

LEMONS LIME Do not allow more than once per season.

10' deep, within 17 days of harvest

WASTEWATER may be "sludge," generated & absorbed through its
Hazardous Concentration - as well as "solid waste" - as follows:

Thoroughly after handling

Not to Physicists: Emergency information: call (415) 233-3737.
Do not contaminate feed and foodstuffs. **WARNING: FLAMMABLE**
DIE KEEP AWAY FROM HEAT OR OPEN FLAME. Do not use
within 30 days before or after sulfur application. Do not use
when the temperature is below 40 °F or when freezing tempera-
tures are expected. Avoid spraying when temperature is above 90 °F.
Do not apply to any citrus suffering from lack of moisture. Do
NOT APPLY to Nuts and/or Citrus. After container is empty,
immediately wash thoroughly and destroy. Never reuse.

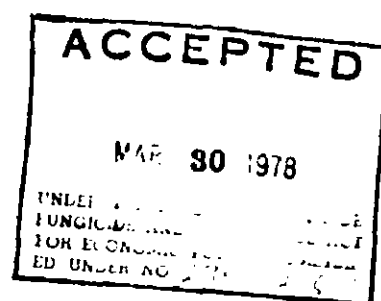

This product is poisonous to fish and wildlife. Keep out of lakes, ponds, and streams. Do not apply in any manner not specified on the label.

NOTICE: Buyer assumes all responsibility for safety and use of this product. See instructions for proper use.
