 Form 7717 D EPA Est. 239 MO 1  
 EPA Reg. No. 239 2273

DIFOLATAN BOTRAN 35-35 Seed Protectant is a special formulation developed for dust application to peanut seed. It is used to prevent seed rot and damp-off diseases, including Rhizopus and Aspergillus spp., attacking germinating seeds and seedlings.

**DIRECTIONS**

**PEANUTS:** Use 5 oz per 100 lbs of seed. Apply with standard commercial treating machine designed for dust formulations and providing uniform coverage of treated seed.

Do not use treated seed for human consumption. Seeds treated with DIFOLATAN BOTRAN 35-35 Seed Protectant, sold or shipped as feed or foodstuffs, may be considered adulterated under state and federal laws. Treated seed should be labeled as follows: "TREATED SEED. DO NOT USE FOR FOOD, FEED OR OIL".

**CONDITIONS OF SALE:** 1. Chevron Chemical Company (Chevron) warrants that this material conforms to the chemical description on the label and is reasonably fit for use as directed hereon. Chevron neither makes, nor authorizes any agent or representative to make, any other warranty of FITNESS or of MERCHANTABILITY, guarantee or representation, express or implied, concerning this material.

2. Critical and unforeseeable factors beyond Chevron's control prevent it from eliminating all risks in connection with the use of chemicals. Such risks include, but are not limited to, damage to plants and crops to which the material is applied, lack of complete control, and damage caused by drift to other plants or crops. Such risks occur even though the product is reasonably fit for the uses stated hereon and even though label directions are followed. Buyer and user acknowledge and assume all risk, and liability (except those assumed by Chevron under 1 above) resulting from handling, storage, and use of this material.
