Richmond CA 94804

VOLCK Supreme-Ethion Combination Northwest is for use in dormant and delayed dormant periods for control of scale insects, aphids and mite eggs. THOROUGH COVERAGE IS NECESSARY. This product is for use in the Pacific Coast States for application during dormant and late dormant periods only. Do not apply after foliage or edible parts begin to form. Do not apply to forage crops. Do not use in undiluted form.

#### DIRECTIONS

ALMOND, NECTARINE, PEACH, PLUM, PRUNE: San Jose Scale, Soft Scales, Overwintering Eggs of European Red Mite and Brown Almond Mite, Parlatoria (Olive) Scale-Use 1½-2 gals, per 100 gals. water during the dormant period. Do not graze livestock in treated almond groves.

APPLES: San Jose Scale, Soft Scales, Overwintering eggs of Rosy Apple Aphid and Green Apple Aphid, European Red Mite or Brown Almond Mite-Use 1-3-2 gals, per 100 gals, water in the late dormant period. Blister Mites-Use 2 gals, per 100 gals, water in the late dormant period. Do not use on Astrachan, Duchess, Margaret Pratt, Melba, Wealthy, Williams Red (Red Williams), Yellow Transparent, or any variety maturing before Farly MoIntosh, as injury may result.

### DO NOT TAKE INTERNALLY DO NOT INHALE DO NOT GET ON SKIN

WARNING: May be fatal if swallowed. Absorbed through skin. Handle concentrate in a well-ventilated area. Do not breathe vapor or spray mist. Avoid contact with skin, eyes and clothing. Wash thoroughly after handling.

Note to Physicians: Emergency Information-call (415) 233-3737. Atropine is antidotal. 2 PAM is also antidotal and may be administered in conjunction with atropine. Do not store or transport near feed or food. DO NOT USE, POUR, SPILL, OR STORE NEAR HEAT OR OPEN FLAME.

This product is toxic to fish and wildlife. Keep out of lakes, ponds and streams. Do not apply where runolf is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of wastes. Do not apply to any area not specified on the label. Rinse equipment and dispose of wastes by burying in non-crop lands away from water supplies.

This product is toxic to bees and should not be applied when bees are actively visiting the area.

PEAR: San Jose Scale, Soft Scales, Overwintering Eggs of European Red Mite and Brown Almond Mite-Use 1%-2 gals. per 100 gals. water during dormant period. Pear Psylla-2 gals. per 100 gals. water in delayed dormant period. Blister Mites-Use 2 gals, per 100 gals. water shortly after harvest of fruit or late dormant period. Do not apply to trees lacking moisture.

PLUM, PRUNE, APRICOT, CHERRY: Overwintering eggs of Mealy Plum Louse, Leaf Curl Plum Aphid, European Red Mite and Brown Almond Mite-Use 11/2-2 gals. in 100 gals, water in the late dormant period.

MIXING DIRECTIONS: With enough water in tank to cover agitator shaft and with agitator in motion, add desired amount of this material for full tank. Pump this mixture through the overflow and back into tank for about two minutes to insure proper emulsification. Fill tank with water, adding other desired materials as tank is filling.

NOTE: This product may be used in combination with ORTHO Copper 53 Fungicide. It may also be used in combination with ORTHO Powdered Bordeaux Mixture or ORTHO Lime-Sulfur Solution. If the total solids are greater than 4 lbs, per 100 gals, spray, add an additional ½ gal, of dormant oil per 100 gals. Exercise care to insure complete mixing. Do not use in combination with or closely following ORTHOCIDE 50 Wettable or other captan or PHALTAN containing products. Do not use if material does not emulsify. Avoid application of oil sprays just prior to or during hot or freezing weather, or during rainy weather or dry hot winds. When temperatures drop below 32° F (usually hight-time lows), do not spray tree and vine crops until daytime temperatures have warmed to a point above 35° F, and are free from moisture due to melting frost or heavy dews. Avoid double spraying. Plants receiving oil sprays should be in healthy condition and proper moisture should be present.

**CONDITIONS OF SALE: 1.** Chevron Chemical Company (Chevron) warrants that this material conforms to the chemical description on the label and is reasonably fit for use as directed hereon. Chevron neither makes, nor authorizes any agent or representative to make, any other warranty of FITNESS or of MERCHANTABILITY, quarantee or representation, express or implied, concerning this material.

2. Critical and unforeseeable factors beyond Chevron's control prevent it from eliminating all risks in connection with the use of chemicals. Such risks include, but are not limited to, damage to plants and crops to which the material is applied, lack of complete control and damage caused by drift to other plants or crops. Such risks occur even though the product is reasonably fit for the uses stated hereon and even though label directions are followed. Buver and user acknowledge and assume all risks and liability (except those assumed by Chevron under 1 above) resulting from handling, storage, and use of this material.
