# ORTHO Dairy & Horse Fly Spray R

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL CAUTIONS, WARNINGS AND DIRECTIONS, AND WITH APPLICABLE FEDERAL AND STATE REGULATIONS.

KEEP PESTICIDE IN ORIGINAL CONTAINER. DO NOT PUT CONCENTRATE OR DILUTE INTO FOOD OR DRINK CONTAINERS.

ORTHO Dairy and Horse Fly Spray R is a specially formulated spray, designed to kill and repel flies and certain other insects attacking livestock. It is also effective as a space spray to kill flies in barns, milk rooms, homes, restaurants and food processing plants.

### DIRECTIONS

Do not remain in treated areas and ventilate the area after treatment is completed.

**DAIRY STOCK AND OTHER ANIMALS (such as Horses, Beef Cattle, Hogs, Sheep) for protection against Face Flies, Horn Flies, Houseflies, Stable Flies, Mosquitoes and Gnats:** Apply undiluted as a fine mist-type spray with a convenient atomizer sprayer. Coarse droplets must be avoided. Apply just enough spray to wet the ends of the hair but not enough to wet the hide. Pay particular attention to face, head, backs, bellies and shoulders. Avoid areas around nose, eyes and mouth. One to two ounces is enough to treat an adult cow. Apply daily for 3 to 4 days. Repeat applications every 2 to 3 days are usually sufficient to keep flies under control. When flies are particularly heavy, additional treatments may be necessary. Be sure teats and udders of milking animals are washed with warm water prior to milking. Calves should be sprayed very lightly once a day.

**DAIRY BARNs, MILK ROOMs, MILKING BARNs, CALF PENS, HORSE STALLs, LIVESTOCK QUARTERS: Flies, Mosquitoes, Gnats** - Close all doors and windows where possible, then spray all parts of the room thoroughly. Use approximately two ounces of ORTHO Dairy & Horse Fly Spray R to each 1,000 cubic feet of space. Direct the spray toward the ceiling and upper areas of the building, concentrating on beams, rafters and other areas where flies congregate. Doors and windows may be opened after ten to fifteen minutes. Sweep up and destroy all fallen insects. Treat daily or as required. Do not contaminate milk, milk handling equipment, feed or drinking water. Do not use in poultry houses.

**ANTS:** Direct spray along runways, baseboards and other places, where these insects congregate. If possible, spray directly on insects themselves. Also treat behind shelving, bookcases and storage areas. Repeat as necessary.

**FLEAS:** Spray floors, rugs, animals' sleeping quarters and other areas. Repeat as necessary.

**BUILDINGS (such as Homes, Restaurants, Food Processing Plants):** Apply as a fine, mist-type space spray with a convenient atomizer-type sprayer, filling the room with mist. Coarse droplets must be avoided. No dilution is necessary. Use as a space spray in food processing plants only when plant is not in operation. Foods should be removed or covered during treatment. All food processing surfaces should be covered or thoroughly cleaned before using.

**FOR A COMPLETE FLY CONTROL PROGRAM IN AND AROUND BUILDINGS:** Use ORTHO Fly Killer Dry Bait and ORTHO Malathion 50 Insect Spray as residual control against stable flies and houseflies. Sanitation is also important.

**CAUTION:** Harmful if swallowed. DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME. When container is empty, immediately wash thoroughly and destroy. Never re-use.

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes.

**CONDITIONS OF SALE:** 1. Chevron Chemical Company (Chevron) warrants that this material conforms to the chemical description on the label and is reasonably fit for use as directed hereon. Chevron neither makes, nor authorizes any agent or representative to make any other warranty of FITNESS or of MERCHANTABILITY, guarantee or representation, express or implied, concerning this material.

2. Critical and unforeseeable factors beyond Chevron's control prevent it from eliminating all risks in connection with the use of chemicals. Such risks include, but are not limited to damage from application, lack of complete control, and damage caused by drift. Such risks occur even though the product is reasonably fit for the uses stated hereon and even though label directions are followed. Buyer and user acknowledge and assume all risks and liability (except those assumed by Chevron under 1 above) resulting from handling, storage, and use of this material.
