

ORTHO

Crab Grass & Dandelion Killer

EPA Est. 239-MO-1 No. 025777 DA

ORTHO

Crab Grass & Dandelion Killer

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL DANGER STATEMENTS AND DIRECTIONS.

KEEP PESTICIDE IN ORIGINAL CONTAINER. DO NOT PUT CONCENTRATE OR DILUTE INTO FOOD OR DRINK CONTAINERS.

DIRECTIONS: ORTHO Crab Grass & Dandelion Killer can be used to control established crabgrass, dandelion, plantain, knotweed, purslane and pennywort in the major turf grasses. Fescue, Bermuda and Zoysia lawns may be temporarily discolored. Do not use on Dichondra, St. Augustine, Carpet, Centipede, Bahia and Bentgrass lawns.

DILUTION TABLE

ORTHO Crab Grass & Dandelion Killer TO USE	ADD WATER TO MAKE	TO COVER
1½ fl. oz. (3 Tablespoonfuls)	1 gallon	250 sq. ft.
3 fl. oz. (6 Tablespoonfuls)	2 gallons	500 sq. ft.
6 fl. oz. (12 Tablespoonfuls)	4 gallons	1000 sq. ft.
9 fl. oz.	6 gallons	1500 sq. ft.

DO NOT APPLY WHEN DAILY HIGH IS EXPECTED TO EXCEED 90° F.

CRABGRASS, DANDELIONS, OTHER LISTED BROADLEAF WEEDS: See Dilution Table for dosages. For best results, make the first application when crabgrass seedlings are small and repeat application in 7 to 10 days. Soil should be moist before treatment. During dry spells, water thoroughly before making application. Do not water for 2 days after treatment, then resume watering if required, particularly during hot, dry weather. Rain within 24 hours may necessitate retreatment. Follow up spot sprays may be needed for newly germinated crabgrass or weeds. Do not apply when daily high is expected to exceed 90° F.

NUT GRASS (Cyperus sp.) in Bermuda, Bluegrass and Zoysia Lawns: See Dilution Table for dosages. Make 2 to 3 applications at 7 to 10 day intervals starting when nut grass first appears. Follow directions given on label for control of crab grass above.

HOW TO APPLY: Measure the area to be treated and apply the correct amount of chemical evenly over the entire lawn. Use ORTHO SPRAY-ETTE or tank-type sprayer that delivers a coarse spray. Spray when air is calm to avoid spray drift that might injure desirable ornamental plants or vegetables.

IMPORTANT: Do not spray or allow to drift onto desirable flowers, shrubs, trees, vegetables or into lakes or streams. Coarse sprays are less likely to drift. Do not reseed for 3 weeks after last treatment. Do not apply to newly seeded lawns until after third mowing. If ORTHO SPRAY-ETTE is used and rinsed thoroughly as directed on sprayer jar immediately after applying ORTHO Crab Grass & Dandelion Killer, it can be used to apply insecticides, fungicides and liquid fertilizers to ornamental plants.

DANGER: Harmful if swallowed. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Do not breathe vapor or spray mist. Wear goggles or face shield when handling concentrate. In case of eye contact, immediately flush eyes with plenty of water and see a physician. Wash hands after using. Keep away from children and domestic animals. Keep children and animals away from treated areas until these areas are dry.

ANTIDOTE: If taken internally, induce vomiting and call a physician at once. **Note to Physicians:** Emergency Information—call (415) 233-3737.

Avoid contamination of feed, foodstuffs, streams or other water sources. **WARNING—FLAMMABLE! KEEP AWAY FROM HEAT OR OPEN FLAME.** When container is empty, immediately wash thoroughly and destroy. Never reuse.

Do not contaminate water used by fish and wildlife or for domestic and irrigation purposes.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
