

ORTHO BUG-GETA[®] Snail & Slug Pellets

ORTHO

ORTHO

BUG-GETA Snail & Slug Pellets is specially formulated to attract and control snails and slugs. The highly compressed pellets are easy to use, clean to handle and economical. 1 lb. of BUG-GETA Snail & Slug Pellets will bait 1000 sq. ft.

The presence of snails and slugs can be detected by their shiny mucuous-like trail. They are night feeders and prefer damp, cool places in the ornamental garden, flowers, under boards or flower pots and around fences, hedges and bushes.

DRY, COMPRESSED PELLET

WET, EXPANDED PELLET

Sprinkle lightly with water after application. Each compressed pellet when moistened from wet ground, rain or water, expands into an efficient, pest-attracting mound of bait, which is less attractive to children or pets.

GREENHOUSES AND LATH HOUSES: Distribute pellets on and beneath benches, but do not place in pots or flats unless plants are well established. Keep pellets from coming in contact with plants. If soil is dry, irrigate prior to or sprinkle lightly after distributing pellets.

BUG-GETA[®] Snail & Slug Pellets

BUG-GETA[®] Snail & Slug Pellets
