Mr. W. L. Chase, Jr.
Chevron Chemical Company
Ortho Consumer Products Division
P.O. Box 4010
15049 San Pablo Ave.
Richmond, CA 94804-0010

Dear Mr. Chase:

Subject: Revised labeling to comply with Metaldehyde
Registration Standard
GET-A-ROG Snail & Slug Pellets
EPA Registration No. 239-2373
Amendment application of June 8, 1982

The amendment referred to above, submitted in connection with registration under, FIFRA, is acceptable provided that you:

Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6 (e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamp copy of the labeling is enclosed for your records.

Sincerely yours,

Detoris H. Edwards, Jr.
Product Manager 12
Insecticide-Rodenticide Branch
Registration Division, H7505C

BUG-GETATM Snail & Slug Pellets

NOTE: THE DRY, COMPRESSED PELLETS ARE EASY TO HANDLE AND ECONOMICALLY APPLIED. THE WET, EXPANDED PELLETS ARE ATTRACTIVE TO SLUGS AND SLUGS.

BUG-GETA Snail & Slug Pellets is specially formulated to attract and control snails and slugs. The dry, compressed pellets are easy to use, clean to handle and economical. The wet, expanded pellets are highly attractive to slugs.

The presence of snails and slugs can be detected by the slimy, mucous trails they leave. They are night feeders and often damage plants in the ornamental garden, flower beds, lawns, lawns, pots and around trees, hedges and bushes.

DRY, COMPRESSED PELLET

WET, EXPANDED PELLET

Sprinkle lightly with water after application. Each compressed pellet when moistened from wet ground or water, expands into an efficient, pest-attracting source of bait which is less attractive to children or pets.

GREENHOUSES AND LATH HOUSES: Distribute pellets on and beneath benches, but do not place in pots or flats unless plants are well established. Keep pellets from coming in contact with plants. If soil is dry, water plants or sprinkle lightly after distributing pellets.

FRUITS AND VEGETABLES: To control slugs and slugs around the following fruits and vegetables, apply to the soil surface around the plants. Do not contaminate edible parts.

FRUITS: Apples, Avocados, Blackberries, Cherries, Citrus, Grapes, Peaches, Plums, Strawberry.

VEGETABLES: Asparagus, Beans, Beets, Cabbage, Carrots, Corn, Cucumbers, Eggplant, Lettuce, Melons, Okra, Peas, Peppers, Potatoes, Radishes, Spinach, Squash, Tomatoes and Turnips.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
AND DOMESTIC ANIMALS**

CAUTION: Harmful.

Avoid breathing dust. Avoid contact with skin, eyes or clothing. Wash thoroughly after use. Keep away from children and animals. **IMPORTANT:** KEEP AWAY FROM CHILDREN AND PETS. RATS ARE ATTRACTIVE TO DRY PELLETS. PREVENT THEM FROM REACHING UNDER COVERS. THERE WILL NOT BE A STATEMENT OF PRECAUTIONARY TREATMENT.

If swallowed, contact Poison Control Center or physician. Do not induce vomiting. Give water or milk and induce vomiting by back of throat with finger. Administering syrup of ipecac is not recommended. Do not induce vomiting or give by mouth to an unconscious person. If medical advice is obtained, take product container to the emergency treatment center. In case of eye contact, wash immediately with fresh water for at least 15 minutes. See a physician for eye irritation. For skin irritation, wash skin with plenty of water. If undissolved remains, remove from exposure area. Note to Physicians: For information, call (415) 237-3300. **ENVIRONMENTAL HAZARDS:** This product is toxic to aquatic life. Birds feeding on slugs may be killed. Do not apply to water.

NOTICE: Read assumptions, safety for safety and in accordance with directions.
