For Mr. Chase:

Subject: Amendment - Update Label
ORTHO Diazinon Granules
EPA Registration No. 239-2375
Your submission dated February 13, 1985

BEST AVAILABLE COPY

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable provided that you:

1. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:
 - a. Delete "DIRECTIONS" which currently appears above "BAND TREATMENT AROUND FOUNDATION".
 - b. Revise the third sentence of the If Swallowed advice to read:

"If this is not possible, telephone a physician, or emergency hospital, or Poison Control Center for medical advice."
2. Submit five (5) copies of your final printed labeling before you release the product for shipment under the amended labeling.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

George T. LaRocca
Product Manager (15)
Insecticide-Rodenticide Branch
Registration Division (TS-767)

PRECAUTIONARY STATEMENTS 10 pt.

HAZARDS TO HUMANS & DOMESTIC ANIMALS 10 pt.

CAUTION 10 pt.

Harmful if swallowed or absorbed through the skin. Causes eye irritation. Avoid contact with eyes, skin and clothing. Avoid inhalation of dust. Avoid contamination of food and feed. Wash thoroughly after handling. Keep children and pets off treated area until completely dry. Kitchen utensils such as measuring cups should not be used for food purposes after use in measuring pesticides.

STATEMENT OF PRACTICAL TREATMENT 10 pt.

In swallowed, DO NOT make person vomit unless directed to do so by a doctor. Immediately take person and container to a doctor or an emergency hospital. If this is not possible, telephone for medical advice. In case of eye contact, immediately flush eyes with fresh water for 15 minutes. If irritation persists, see a doctor. If on skin, wash thoroughly with soap and water. **Note to Physicians:** Emergency Information - call (415) 233-3737. Diazinon is an organophosphorus cholinesterase inhibitor. If signs and symptoms of cholinesterase inhibition develop, atropine sulfate is antidotal. 2-PAM may also be given in conjunction with atropine, but should not be used alone.

ENVIRONMENTAL HAZARDS 10 pt.

This product is toxic to fish and wildlife. Birds feeding on treated areas may be killed. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.

ORTHO

Diazinon Granules

- KILLS HOME INVADING PESTS — Ants
Brown Dog Ticks, Fleas, Clover Mites
Crickets, Earwigs, Millipedes, Sowbugs
- KILLS LAWN INSECTS — As Listed on Back Panel

EFFECTIVE
ANT
CONTROL

ORTHO Diazinon Granules

A → ~~READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL CAUTIONS AND DIRECTIONS.~~
~~KEEP PESTICIDE IN ORIGINAL CONTAINER.~~

DIRECTIONS

BAND TREATMENT AROUND FOUNDATION for Home Invading Pests: The following insects and pests are commonly found around or near the foundation of houses as well as in the lawn. Certain of these insects may even enter the house.

Ants	Crickets	Millipedes
Lawn Dog Ticks	Earwigs	Sowbugs
Clover Mites	Fleas	Springtails (Collembola)

For the control of the above insects, apply a free cast band of ORTHO Diazinon Granules next to the foundation of the house. Distribute the granules uniformly using a rate of 8 oz. for each 100 sq. ft. area to be treated.

SPOT TREATMENT

ANTS: Apply one level Tablespoonful of ORTHO Diazinon Granules over and around each individual ant hill.

DIGGER WASPS: Apply one level Tablespoonful of ORTHO Diazinon Granules in and around each individual ground nest opening. Make the application about dusk when the wasps are not active.

OVERALL LAWN PROTECTION

ORTHO Diazinon Granules control the following lawn insects on both grass and dichondra lawns: Chinch Bugs, Ticks, Ants, Sod Webworms (Lawn Moths), Cutworms, White Grubs (Japanese Beetle, European Chafer, Southern Chafer), Billbugs, Bermuda Mites, Crickets, Armyworms, Fleas, Leafhoppers, Sowbugs, Millipedes, Springtails.

When to Apply

ORTHO Diazinon Granules should be applied when insects are present for control of listed insects. For control of Ants, Chinch Bugs, Sod Webworms (Lawn Moths), Armyworms, Leafhoppers, Cutworms and Bermuda Mites which have several generations per season, repeat applications at 4-6 week intervals if insects are present.

To control White Grubs of Japanese Beetles, European Chafer and Southern Chafer, make applications anytime between late July and early October. For Billbug control, apply when activity is first observed or when chewed or brown grass indicates damage from these insects. Repeat as necessary.

How to Apply

On most grass and dichondra lawns the contents of this canister (1 lb.) should be sprinkled evenly over area of 200 sq. ft. (10' x 20'). For heavy lawns such as St. Augustine Grass, spread contents over 128 sq. ft. (8' x 16'). For White Grub and Billbug control, spread contents evenly over 160 sq. ft. (10' x 16').

For best results the lawn should be dry and mowed before application. Sprinkle lightly after application to wash granules off foliage. For control of surface feeding insects, Armyworms and Sod Webworms (Lawn Moths), apply late in the evening and withhold heavy watering for 24 hours. To control Chinch Bugs, Cutworms, White Grubs, Billbugs and Ants, water the lawn thoroughly after application.

C → **CAUTION:** Harmful if swallowed or absorbed through the skin. Avoid contact with eyes, skin and clothing. Wash thoroughly after handling. Keep children and pets off treated area until completely dry.
Note to Physicians: Emergency Information - call (415) 233-3737. Atropine-antidotal. 2-PAM is also antidotal and may be administered in conjunction with atropine.
Avoid contamination of feed and foodstuffs. Dispose of container promptly when empty by wrapping and placing in trash collection.
This product is toxic to fish and wildlife. Birds feeding on treated areas may be killed. Keep out of any body of water. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
