

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH DANGER STATEMENTS AND DIRECTIONS, AND WITH APPLICABLE STATE AND FEDERAL REGULATIONS.

KEEP PESTICIDE IN ORIGINAL CONTAINER. DO NOT PUT CONCENTRATE OR DILUTE INTO FOOD OR DRINK CONTAINERS.

KEEP COOL IN SHADE

WASH, PERFORATE AND BURY CONTAINER WHEN EMPTY. NEVER RE-USE.

ORTHO TEPP 40 Spray is a liquid concentrate for use in spray mixtures against various insect pests. For best results use in commercial power spray rigs. Agitate before using. Use within 30 minutes after mixing with water. Use a fine, mist-like spray with uniform coverage. Repeat as necessary. Do not apply to food or feed crops within 3 days of harvest unless otherwise noted. Do not apply to sensitive crops.

Not for use or storage in or around the home.

**ORANGES:** Aphids, Thrips, Red Spider Mites, Leafhopper Nymphs— $\frac{1}{8}$  to  $\frac{1}{4}$  pint in 100 gallons water (200 to 300 gals. per acre). Contact as many insects as possible. Repeat at 7 days for control of Red Spider.

**APPLES, PEACHES:** Leafhopper Nymphs, Red Spider Mites, Thrips, Aphids —  $\frac{1}{4}$  pint per 100 gals. water (200 to 300 gals. per acre). Start treatment at first sign of insects. Repeat in 7 days for Red Spider Control. **Apples:** Do not apply as a concentrate spray in excess of  $\frac{2}{3}$  pint per 100 gals. water regardless of the concentration of other active ingredients. Avoid spraying during humid, slow drying periods as fruit and foliage injury may result. **On Apples: in the Pacific Northwest—** $\frac{1}{4}$  to  $\frac{1}{2}$  pint per 100 gals. water (300 to 600 gals. per acre). The use of the higher rates on sensitive varieties of apples may result in injury. Do not concentrate more than 1 pt. in 100 gals. water as injury may occur.

**CABBAGE, CAULIFLOWER AND POTATOES:** Aphids, Red Spider Mites, Two-Spotted Mites, Cabbage Flea Beetle, 1st and 2nd instar Cabbage Caterpillar, Thrips, Leafhopper Nymphs— $\frac{1}{4}$  pint per 100 gallons water (200 to 300 gals. per acre). Repeat in 7 days for control of Red

### NET CONTENTS 1 GALLON LIQUID

Spider and at 10-day intervals or as necessary for other insects. Apply as soon as insects appear. Contact as many insects as possible. On row field crops, best results are obtained with hooded ground dusters.

**FOR CONCENTRATE SPRAY APPLICATIONS on Pests Listed:** ¾ to 1 pt. per acre in sufficient water for coverage. When applied by airplane or as a concentrate spray, use an extremely fine or highly atomized mist type spray.

**NOTE:** This product decomposes on dilution with water—it should be used promptly after dilution. Avoid contamination of this container with water. Do not use on Cyclamen and Tomatoes. **On Well Established Field Plants:** ORTHO TEPP 40 Spray can be used if applied in an extremely atomized spray.

**DANGER:** Poisonous If Swallowed, Inhaled or Absorbed Through Skin or Eyes! Rapidly Absorbed Through Skin or Eyes. Do not breathe spray mist. Avoid skin or eye contact with concentrated spray, or prolonged contact with diluted spray. Wear a mask or respirator of a type passed by the U. S. Bureau of Mines for tetraethyl pyrophosphate protection. Wear natural rubber gloves, protective clothing and goggles. Keep all unprotected persons out of operational area or vicinity where there may be danger of drift until one hour after spraying is completed.

This product is toxic to fish and wildlife. Birds and other wildlife in treated areas may be killed. Keep out of lakes, streams or ponds. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label. Do not apply when weather conditions favor drift from areas treated.

**CONDITIONS OF SALE:** 1. Chevron Chemical Company (Chevron) warrants that this material conforms to the chemical description on the label and is reasonably fit for use as directed hereon. Chevron neither makes, nor authorizes any agent or representative to make, any other warranty of FITNESS or of MERCHANTABILITY, guarantee or representation, express or implied, concerning this material.

2. Critical and unforeseeable factors beyond Chevron's control prevent it from eliminating all risks in connection with the use of chemicals. Such risks include, but are not limited to, damage to plants and crops to which the material is applied, lack of complete control, and damage caused by drift to other plants or crops. Such risks occur even though the product is reasonably fit for the uses stated hereon and even though label directions are followed. Buyer and user acknowledge and assume all risks and liability (except those assumed by Chevron under 1 above) resulting from handling, storage, and use of this material.
