*Sodium Cacodylate	

**READ ENTIRE LABEL. USE STRICTLY IN ACCORD-
ANCE WITH LABEL CAUTIONS AND DIRECTIONS.**

KEEP PESTICIDE IN ORIGINAL CONTAINER. DO
NOT PUT INTO FOOD OR DRINK CONTAINERS.

DIRECTIONS:

ORTHO Ready-Mixed CONTAX Weed & Grass
Killer is a non-selective, ready to use herbicide that
top kills weeds and grasses on contact. Its phyto-
toxic properties are quickly inactivated on contact
with soil. Using the self contained applicator cap,
apply as directed to control unwanted vegetation
around trees, shrubs, buildings, in brick and gravel
walks, patios and along fences, sidewalks, drive-

ways, curbs and gutters. Will not stain gravel or
paved areas.

WHEN TO APPLY: ORTHO Ready-Mixed CONTAX
Weed & Grass Killer can be applied anytime during
the growing season, but best results are obtained
during warm sunny weather when applied to ac-
tively growing unwanted vegetation. Sunlight and
temperatures above 80 F. accelerate the destruc-
tion of treated vegetation. **To avoid drift to desir-
able plant foliage, apply only when air is calm.**
Heavy lawn grass and difficult to control perennial
weeds such as bermudagrass and dallisgrass will
require more than one application to give complete
control of top growth.

KEEP OUT OF REACH OF CHILDREN

**SEE BACK PANEL
FOR ADDITIONAL CAUTIONS**

CAUTION: May be harmful if swallowed.
Avoid contact with skin and eyes. Avoid breathing
spray mist. Wash hands after using. Avoid contam-
ination of feed and foodstuffs. Do not use in veg-
etable gardens. Keep children and domestic
animals off treated areas until this material has
been washed into the soil. Do not track from
treated areas to untreated areas. Do not contam-
inate water used for irrigation or domestic pur-
poses. When container is empty, **immediately wash
thoroughly. Never re-use for anything except
CONTAX Weed & Grass Killer.**

FIRST AID: If taken internally induce vomiting and
call a physician at once.

HOW TO APPLY: Remove cap from applicator head
and be certain that applicator head is screwed
firmly on jug. Invert jug and apply product to thor-
oughly cover unwanted vegetation. The width of
the spray pattern may be adjusted by either raising
or lowering the jug.

For top killing vegetation around trees, shrubs and
buildings and edging around lawns, fences and
sidewalks, hold the jug about 2 to 6 inches from the
area to be treated depending upon desired width.

For controlling weeds in brick and gravel walks and
patios and in other unconfined areas, hold jug at
about waist height away from body to avoid con-
tact with skin or clothing. Walk slowly making sure
that all undesirable plants are thoroughly covered
with spray. Apply 1 gallon to 200 square feet. For
spot treating or retreating missed areas, hold jug so
that spray hits only the weed or area to be treated.

Under warm sunny conditions wilting will occur in
1 to 3 days and complete browning in 5 to 7 days.

For economical refill, use concentrated ORTHO
CONTAX Weed & Grass Killer. Fill this bottle with
concentrate to mark on label 26 fl. ozs., fill re-
mainder of bottle with water and apply as directed
above.

IMPORTANT: To avoid drift that may injure desir-
able plants, do not apply during windy weather.
**Make sure that spray does not contact the leaves,
green bark, bud crowns or broken bark on trees
and ornamentals.**

NOTICE: Pesticide may be hazardous to health, property,
and the environment. Use only as directed.
