

Ready-Mixed CONTAX® Weed & Grass Killer

ORTHO

TOP KILLS: Weeds and Grasses On Contact
Around Trees, Shrubs, Patios, Walks
Driveways, Fences

Will Not Sterilize Soil When Used According To
Directions.

CONVENIENT APPLICATOR TOP

Active Ingredients	By Wt
Sodium Dimethylarsinate*	2.27%
Dimethylarsinic Acid	0.39%
Inert Ingredients	97.34%
Total Arsenic as Elemental, All Water Soluble - 1.28%	
Dimethylarsinic Acid Equivalent per gallon - 0.2 lb	
Sodium Cacodylate	

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL CAUTIONS AND DIRECTIONS.

KEEP PESTICIDE IN ORIGINAL CONTAINER DO NOT PUT INTO FOOD OR DRINK CONTAINERS

DIRECTIONS:

ORTHO Ready-Mixed CONTAX Weed & Grass Killer is a non-selective, ready to use herbicide that top kills weeds and grasses on contact. Its phytotoxic properties are quickly inactivated on contact with soil. Using the self contained applicator can apply as directed to control unwanted vegetation around trees, shrubs, buildings, brick and gravel walks, patios and along fences, sidewalks, drive-

ways, curbs and gutters. Will not stain gravel or paved areas

WHEN TO APPLY: ORTHO Ready-Mixed CONTAX Weed & Grass Killer can be applied anytime during the growing season, but best results are obtained during warm sunny weather when applied to actively growing unwanted vegetation. Sunlight and temperatures above 80° F accelerate the destruction of treated vegetation. **To avoid drift to desirable plant foliage, apply only when air is calm.** Heavy lawn grass and difficult to control perennial weeds such as bermudagrass and dallisgrass will require more than one application to give complete control of top growth.

HOW TO APPLY: Remove cap from applicator head and be certain that applicator head is screwed firmly on jug. Invert jug and apply product to thoroughly cover unwanted vegetation. The width of the spray pattern may be adjusted by either raising or lowering the jug.

For top killing vegetation around trees, shrubs and buildings and edging around lawns, fences and sidewalks, hold the jug about 2 to 6 inches from the area to be treated depending upon desired width.

For controlling weeds in brick and gravel walks and patios and in other unconfined areas, hold jug at about waist height away from body to avoid contact with skin or clothing. Walk slowly making sure that all undesirable plants are thoroughly covered with spray. Apply 1 gallon to 200 square feet. For spot treating or retreating missed areas, hold jug so that spray hits only the weed or area to be treated.

Under warm sunny conditions wilting will occur in 1 to 3 days and complete browning in 5 to 7 days.

IMPORTANT: To avoid drift that may injure desirable plants, do not apply during windy weather. **Make sure that spray does not contact the leaves, green bark, bud crowns or broken bark on trees and ornamentals. Do not apply on or around plants to be used for food or feed.**

Do not track from treated areas to untreated areas

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.

KEEP OUT OF REACH OF CHILDREN

SEE BACK PANEL FOR ADDITIONAL CAUTIONS

CAUTION: May be harmful if swallowed. Avoid contact with skin and eyes. Avoid breathing spray mist. Wash hands after using. Keep children and domestic animals off treated areas until this material has been washed into the soil.

FIRST AID: If taken internally, induce vomiting and call a physician at once. **Note to Physicians:** Emergency Information - call 415-233-3737.

Avoid contamination of feed and foodstuffs. Do not contaminate water used for irrigation or domestic purposes. Do not reuse empty container. Wrap container and put in trash collection.
