

ORTHO SLUG-GETA Snail & Slug Bait

READ INSTRUCTIONS ON EACH PRODUCT PACKAGE AND FOLLOW DIRECTIONS WITH LABEL CAUTIONS AND PRECAUTIONS.

For more information, call 1-800-4-A-GARDEN.

ORTHO SLUG-GETA is a granular bait that effectively controls snails and slugs on lawns, ornamental gardens, planted borders and ground covers. Simply scatter granules over the infested area with a WIFEYBIRD Spreader.

DIRECTIONS FOR USE

FOR BEST RESULTS WATER AREA TO BE TREATED PRIOR TO APPLICATION. This product can be applied anytime during the day but late afternoon or evening is preferred.

FOR ORNAMENTAL GARDENS, PLANTED BORDERS AND GROUND COVERS To control Snails and Slugs: Water area to be treated before application. Apply 1 pound to 1000 square feet. Scatter granules uniformly over the infested area and around the edges of border or ground cover plants. Apply also to the bases of fences and walls and in shady protected areas. Repeat as necessary to keep areas free of slugs and snails. Do not put granules in piles. Withhold heavy watering for at least 2 days after treatment. However, if foliage and soil surface becomes dry after application, a light sprinkling applied at dusk will encourage movement and increase feeding on the bait. **Do not use around food crops.**
