

ORTHO

Outdoor Insect Fogger

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL CAUTIONS AND DIRECTIONS.

ORTHO Outdoor Insect Fogger is especially formulated to control insects in backyards, patios and picnic areas. Sprays far beyond ordinary insect sprays. This product blankets large areas with a penetrating insect-killing fog. It contains an insecticide and repellents that kill and repel mosquitoes, flies and gnats. Also kills flying moths, hornets and wasps.

DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING. Remove protective cap. Point spray nozzle away from face. For best results, spray in the direction of a slight breeze that allows the fog to drift into the areas of infestation. Spray while moving away from the treated areas. Allow spray to dissipate before occupying the treated area.

FLYING INSECTS (Mosquitoes, Flies, Moths, Gnats)—Direct spray from a distance of 4 to 6 feet from flowering plants, shrubbery, and grass to where the insects may be resting. Avoid heavy wetting of plant foliage. Also spray around garbage cans and other breeding areas. Repeat as necessary. **Wasps, Hornets**—Spray directly on wasps and hornets. Thoroughly wet the nesting area during the evening when these insects are less active.

CRAWLING INSECTS (Ants, Centipedes, Crickets, Sowbugs, Spiders)—Spray infested surface of patio or picnic area directing spray on insects whenever possible. Treat areas around garbage cans, picnic sites and campgrounds infested by these pests. Also thoroughly spray ant hills for best results. Spray in short bursts of 2 seconds at 4 to 6 foot distance for control of **Brown Recluse Spiders** and **Black Widow Spiders**. Repeat application as necessary.

CAUTION: Avoid breathing spray mist. Avoid contact with skin. Harmful if swallowed. Avoid smoking while spraying. Direct spray away from people or animals.

Note to Physicians: Emergency Information—call (415) 233-3737.

Not for indoor use. While spraying for flying insects outdoors, hold container 4 to 6 feet away from plants and shrubs. Direct spray to fill the air around these plants without heavily wetting the plant foliage. Cover food before spraying. Do not spray on food crops. Allow spray to disperse for several minutes before entering the treated area.

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F. may cause bursting.

DISPOSAL

Do not reuse empty container. Wrap container and put in trash collection.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
