## ORTHO Outdoor Insect Fogger

### PRECAUTIONARY STATEMENTS

#### HAZARDS TO HUMANS & DOMESTIC ANIMALS

**CAUTION:** Avoid breathing spray mist. Avoid contact with skin. Harmful if swallowed. Avoid smoking while spraying. Direct spray away from people or animals. Cover food before spraying. Do not spray on food crops. **Note to Physicians:** Emergency Information — call (415) 233-3737.

**ENVIRONMENTAL HAZARDS:** This pesticide is highly toxic to fish. Do not apply directly to water or wetlands (swamps, bogs, marshes, and potholes). Drift and runoff from treated sites may be hazardous to fish in adjacent waters.

**PHYSICAL OR CHEMICAL HAZARDS:** Contents under pressure. Do not store near heat or open flame. Exposure to temperatures above 130°F may cause bursting.

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.**

ORTHO Outdoor Insect Fogger is especially formulated to control insects in backyards, patios and picnic areas. Sprays far beyond ordinary insect sprays. This product blankets large areas with a penetrating insect-killing fog. It contains an insecticide and repellents that kill and repel mosquitoes, flies and gnats. Also kills flying moths, hornets and wasps.

**SHAKE WELL BEFORE USING.** Remove protective cap. Point spray nozzle away from face. For best results, spray in the direction of a slight breeze that allows the fog to drift into the areas of infestation. Spray while moving away from the treated areas. Allow spray to dissipate before occupying the treated area.

**FLYING INSECTS (Mosquitoes, Flies, Moths, Gnats)** — Direct spray from a distance of 4 to 6 feet from flowering plants, shrubbery and grass to where the insects may be resting. Avoid heavy wetting of plant foliage. Also spray around garbage cans and other breeding areas. Repeat as necessary. **Wasps, Hornets** — Spray directly on wasps and hornets. Thoroughly wet the nesting area during the evening when these insects are less active.

**CRAWLING INSECTS (Ants, Centipedes, Crickets, Sawbugs, Spiders)** — Spray infested surface of patio or picnic area directing spray on insects whenever possible. Treat areas around garbage cans, picnic sites and campgrounds infested by these pests. Also thoroughly spray ant hills for best results. Spray in short bursts of 2 seconds at 4 to 6 foot distance for control of Brown Recluse Spiders and Black Widow Spiders. Repeat application as necessary.

**Not for indoor use.** While spraying for flying insects outdoors, hold container 4 to 6 feet away from plants and shrubs. Direct spray to fill the air around these plants without heavily wetting the plant foliage. Allow spray to disperse for several minutes before entering the treated area.

#### STORAGE AND DISPOSAL

**STORAGE:** Store in a secure, preferably locked storage area away from heat or open flame.

**DISPOSAL: PRODUCT** — Unused product may be disposed of by securely wrapping original container in several layers of newspaper and discard in trash. **CONTAINER** — Replace cap and discard container in trash. Do not incinerate or puncture.

**NOTICE:** Buyer assumes all responsibility for safety and use not in accordance with directions.
