SEP 17 1979

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, the pesticide registered under EPA Reg. No. 239-2429

ORTHO

Hi-Power

Indoor Insect Fogger

Kills Household Insects:
Exposed Fleas, Roaches, Spiders,
Wasps, Mosquitoes, Flies
Penetrating Insecticide Fog
Fills Entire Room
Treats 5,000 Cubic Feet

Active Ingredients	By Wt.
Pyrethrins	0.50%
Piperonyl Butoxide	1.00%
N-octyl cycloheptene carbamate	1.67%
Petroleum distillate	11.83%
Inert Ingredients	85.00%
*Equivalent to 0.80% butyl carbaryl, 0.6% propyl piperonyl ether and 0.20% cyfluthrin compounds	
*MGK 264 Insecticide Synergist	

Keep out of reach of children.

CAUTION

See back panel for additional precautionary statements.

NET WT. 5 OZ.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS CAUTION

Harmful if swallowed, inhaled or absorbed through the skin. Avoid inhalation of spray mist. Avoid contact with skin, eyes and clothing.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. Note to Physicians: Emergency Information - call (415) 233-3737.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F. may cause bursting.

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.

The contents of this container will treat an unobstructed area of approximately 5,000 cubic feet (625 sq. ft. 25 feet x 25 feet of floor space with standard 8 foot ceiling). If area is larger, use additional containers. The fine aerosol particles kill exposed and accessible stages of small flying moths, wasps, silverfish, cockroaches, flies, gnats, ants, mosquitoes, fleas, crickets and spiders.

DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR TOTAL RELEASE: Complete contents, empty automatically. Remove pets, birds and cover fish aquariums before spraying. Remove all foods, dishes, utensils and other equipment used for handling food and articles made of cotton terry cloth. (If not possible, cover with newspapers.) Cover asphalt tile, waxed wood floors and waxed furniture which may come in contact with the fog. (Newspapers may be used.) Close doors and windows. Turn off fans, air conditioners and extinguish open flames in the room to be treated. In order to do a more effective job, leave cupboards, closets and trunks open. Place can on a raised area such as a table, spread paper under the can to protect the area directly beneath the spray head and can. Shake container. Remove cap, lifting can away from your face. Push down firmly with thumb on sprayer tab until it snaps into place. Leave the room; the spray will continue until the complete contents have been released. For maximum effectiveness, keep treated area closed for 2 hours or more, then open windows and doors and allow space to air for 30 minutes.

FOR OCCASIONAL SPRAYING: Do not lock top. Spray in short burst by pushing down on sprayer tab. Point spray upwards with a circular motion for 5 to 10 seconds for an average room. Keep room closed for 15 to 20 minutes. Then air room out for 15 minutes. Do not use as a total release type treatment after using manually.

SUGGESTION: For adding residual control of crawling pests such as roaches, earwigs, ants, spiders, silverfish, etc., use ORTHO Ant, Roach & Spider Killer prior to activating the Total Release program.

When used in an enclosed area, vacate premises during treatment and ventilate the area once treatment is completed. Foods should be removed or covered during treatment.

DISPOSAL

Do not reuse empty container. Wrap container and put in trash collection.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
