

**ORTHO****HI-POWER™**
Indoor Insect Fogger

Tilt top of can away from your face.

Press lever down firmly with thumb on sprayer tab until it snaps into place.

Put fogger on paper, leave room and close door.

FOR OCCASIONAL SPRAYING Do not look into the fog. In short burst by pushing down on sprayer tab. Push upwards with a circular motion for 5 to 10 seconds in an average room. Keep room closed for 15 to 20 minutes. Then air room out for 15 minutes. Do not use a release type treatment after using manually.

SUGGESTION For adding residual control of crawling insects such as roaches, earwigs, ants, spiders, silverfish, etc., use ORTHO Ant Roach & Spider Spray or ORTHO Insect Control or FLEA-B-GON Flea & Tick Killer after activating Total Release program.

When used in an enclosed area, vacate premises after treatment and ventilate the area once the fog has completed. Foods should be removed from room after treatment.

STORAGE AND DISPOSAL

STORAGE Store in a secure, preferably locked, place away from heat or open flame.

DISPOSAL PRODUCT - Unused product may be disposed of by securely wrapping original container in several layers of newspaper and discarding in trash.

CONTAINER - Replace cap and discard container in trash. Do not incinerate or puncture.

NOTICE Buyer assumes all responsibility for safety. Use not in accordance with directions.

precautionary statements.

NET WT. 10 OZ.

**ORTHO****HI-POWER™**
Indoor Insect Fogger**PRECAUTIONARY STATEMENTS****HAZARDS TO HUMANS & DOMESTIC ANIMALS**

CAUTION: Harmful if swallowed, inhaled or absorbed through the skin. Avoid inhalation of spray mist. Avoid contact with skin, eyes and clothing.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes.

Note to Physicians: Emergency Information - call (415) 233-3737. **PHYSICAL OR CHEMICAL HAZARDS:** Contents under pressure. Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.

The contents of this container will treat an unobstructed area of approximately 10,000 cubic feet (1250 sq. ft., 25 feet x 50 feet of floor space with a standard 8 foot ceiling). If area is larger, use additional containers. For smaller areas, use a size appropriate to treat desired area. The fine aerosol particles kill exposed and accessible stages of small flying moths, wasps, silverfish, cockroaches, flies, gnats, ants, mosquitoes, fleas, spiders and crickets.

DIRECTIONS

FOR TOTAL RELEASE: Complete contents empty automatically. Remove pets, birds and cover fish aquariums before spraying. Remove all foods, dishes, utensils and other equipment used for handling food and articles made of cotton terry cloth (if not possible, cover with newspapers.) Cover asphalt tile, waxed wood floors and waxed furniture which may come in contact with the fog. (Newspapers may be used.) Close doors and windows. Turn off fans, air conditioners and extinguish open flames in the room to be treated. In order to do a more effective job, leave cupboards, closets and trunks open. Place can on a raised area such as a table, spread paper under the can to protect the area directly beneath the spray head and can. Shake container. Remove cap, tilting can away from your face. Push down firmly with thumb on sprayer tab until it snaps into place (see illustration). Leave the room; the spray will continue until the complete contents have been released. For maximum effectiveness, keep treated area closed for 2 hours or more, then open window and doors and allow space to air for 30 minutes.
