ORTHO HI-POWER™
Indoor Insect Fogger

ORTHO

ORTHO HI-POWER™
Indoor Insect Fogger

ORTHO HI-POWER™
Indoor Insect Fogger

Tilt top of can away from your face.

Press lever down firmly with thumb on sprayer tab until it snaps into place.

Put fogger on paper, leave room and close door.

FOR OCCASIONAL SPRAYING: Do not lock top. Spray in short burst by pushing down on sprayer tab. Point spray upwards with a circular motion for 5 to 10 seconds for an average room. Keep room closed for 15 to 20 minutes. Then air room out for 15 minutes. Do not use as a total release type treatment after using manually.

SUGGESTION: For adding residual control of crawling pests such as roaches, earwigs, ants, spiders, silverfish, etc. use ORTHO Ant, Roach & Spider Spray or ORTHO Home Pest Insect Control or FLEA-B-GON Flea & Tick Killer prior to activating Total Release program.

When used in an enclosed area, vacate premises during treatment and ventilate the area once treatment is completed. Foods should be removed or covered during treatment.

STORAGE AND DISPOSAL

STORAGE: Store in a secure, preferably locked storage area away from heat or open flame.

DISPOSAL - PRODUCT: Unused product may be disposed of by securely wrapping original container in several layers of newspaper and discard in trash. **CONTAINER:** Replace cap and discard container in trash. Do not incinerate or puncture.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.

HI-POWER™
Indoor Insect Fogger

Kills Household Insects:
Exposed Fleas, Roaches,
Flies, Spiders, Wasps,
Mosquitoes
Penetrating Insecticide Fog
Fills Entire Room
KILLS FLEAS
ADULT & PRE-ADULT
Treats 10,000 Cubic Feet

Keep out of reach of children
CAUTION
See back panel for additional
precautionary statements.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Harmful if swallowed, inhaled or absorbed through the skin. Avoid inhalation of spray mist. Avoid contact with skin, eyes and clothing. **FIRST AID:** In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. **Note to Physicians:** Emergency Information - call (415) 233-3737. **PHYSICAL OR CHEMICAL HAZARDS:** Contents under pressure. Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.**

The contents of this container will treat an unobstructed area of approximately 10,000 cubic feet (1250 sq. ft., 25 feet x 50 feet of floor space with a standard 8 foot ceiling). If area is larger, use additional containers. For smaller areas, use a size appropriate to treat desired area. The fine aerosol particles kill exposed and accessible stages of small flying moths, wasps, silverfish, cockroaches, flies, gnats, ants, mosquitoes, fleas, spiders and crickets.

DIRECTIONS

FOR TOTAL RELEASE: Complete contents empty automatically. Remove pets, birds and cover fish aquariums before spraying. Remove all foods, dishes, utensils and other equipment used for handling food and articles made of cotton terry cloth. (If not possible, cover with newspapers.) Cover asphalt tile, waxed wood floors and waxed furniture which may come in contact with the fog. (Newspapers may be used.) Close doors and windows. Turn off fans, air conditioners and extinguish open flames in the room to be treated. In order to do a more effective job, leave cupboards, closets and trunks open. Place can on a raised area such as a table, spread paper under the can to protect the area directly beneath the spray head and can. Shake container. Remove cap, tilting can away from your face. Push down firmly with thumb on sprayer tab until it snaps into place (see illustration). Leave the room; the spray will continue until the complete contents have been released. For maximum effectiveness, keep treated area closed for 2 hours or more, then open windows and doors and allow space to air for 30 minutes.

Active Ingredients	By Wt.
Pyrethrins	0.50%
Piperonyl Butoxide	1.00%
**N-octyl bicycloheptene dicarboximide	1.67%
Petroleum distillate	11.83%
***Inert ingredients	85.00%
*Equivalent to 0.80% (butylcarbityl) (6-propylpiperonyl) ether and 0.20% other related compounds	
**MGK 264, Insecticide Synergist
