*ORTHO® RosePride™ FUNGINEX® will control and prevent Black Spot, Powdery Mildew and Rust-the three most important diseases of Roses. Used as directed, RosePride FUNGINEX will not harm rose flowers or foliage. This product also controls Powdery Mildew on Azalea, Begonia, Calendula, Crapemyrtle, Dahlia, Delphinium, Euonymus, Jerusalem Thorn, Kalanchoe, Lilac, Phlox, Photinia, Planetree, Snapdragons and Zinnias. Controls Rust on Asters, Carnations, Oxalis, Poplars, and Planetrees. Controls Entomosporium Leaf Spot on Photinia.*

Spray thoroughly to cover all plant surfaces (both upper and lower leaf surfaces) including new growth. For best results apply with an ORTHO Hose-End Sprayer or pump-up sprayer. Use mixture at once.

WHEN TO USE: Spray when first sign of diseases appear. Apply every 7 to 10 days if weather conditions encourage the spread of disease. NOTE: Leaves on which spots have already developed will not clear up, but the unaffected leaves will be protected if a regular spray program is followed. For timing of applications in your area, contact your local County Extension Agent.
