Get medical attention if eyes continue to burn. **Note to Physicians:** Encourage copious flushing of eyes with water. **First Aid:** If swallowed, induce vomiting. Do not induce vomiting if person is unconscious. If inhaled, get person to fresh air. If on skin, wash with plenty of water. **PHYSICAL OR CHEMICAL HAZARDS:** Extremely flammable. Contents under pressure. Keep away from fire, sparks and heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130°F. May cause burning.

ORTHO Systemic Spot Weed & Grass Killer

Contains Glyphosate—New Systemic Weed and
Grass Killer

BEFORE AFTER

**SYSTEMIC ACTION
KILLS WEEDS & GRASSES
ROOTS AND ALL IN 2 TO 4 WEEKS**

Active Ingredient
Isopropylamine salt of *glyphosate
Inert Ingredients
*N-phosphonomethyl glycine

By Wt.
0.75%
99.25%

KILLS BERMUDA GRASS

Keep out of reach of children

CAUTION

See side panel for additional precautionary
statements.

NET WT. 1 LB. 7 OZ.

**Gives Complete Kill of Tough Annual and
Perennial Grasses and Broadleaf Weeds in Lawns,
Flower Beds, Around Trees and Shrubs, in Walks,
Driveways, in Gravel or Bark Mulch**

ORTHO Systemic Spot Weed & Grass Killer is formulated for spot application to various weeds. This spot weeder produces a foam which clings to the leaf for direct weed contact which kills all types of weeds as listed. The weed killer moves systemically through all parts of the plant. Visible effects occur within 1 week on most weeds with complete kill in 2 to 4 weeks.

DIRECTIONS
Shake can out before using and occasionally during use. Invert can, hold at arm's length and point can at weed as you press button. Do not press button when can is in upright position. Stand close to weed, 1 to 2 feet with can aimed at weed and away from face. Push down briefly on button. Spray to cover center of weed. Do not overspray. The spray foaming action will make it easy for you to see coverage. One application will kill most weeds listed. If certain tough weeds, i.e., nutgrass, Bermudagrass, Canada thistle or red blooded wild morningglory are not completely controlled within 4 weeks, repeat application. This product is a **non-selective weed killer** and will kill all vegetation contacted. Treated areas in lawns can be reseeded 7 days after application. Do not apply when rainfall is expected within 24 hours of application as weed control will be reduced.

IMPORTANT: This product is a **non-selective weed killer** and will kill all vegetation contacted. Be careful when treating weeds not to spray or spray drift onto desirable grasses or they will also be killed. Do not spray or spray drift onto nearby desirable plants. Do not apply when rainfall is expected within 24 hours of application as weed control will be reduced. If spray drift accidentally contacts desirable plants, wash off immediately with water.

DISPOSAL
Do not reuse empty container. Wrap container and put in trash.

NOTICE Read and understand carefully for safety and use not harmful to the environment.

Kills Annual Weeds and Grasses

Clover	Smartweed	Yellow dock
Common Lambquarters	Pink yarrow	White yarrow
