OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION

NOV - 9 2010

Ms. Wendy Hollingsworth-Cox The Scotts Company d/b/a The Ortho Group P.O. Box 190 Marysville, OH 43040

Subject: Notification of Alternate Brand Names per PR Notice 98-10

Ortho Brush-B-Gon Brush Killer

EPA Reg. No. 239-2491

Your Application, Dated October 8, 2010

Dear Ms. Hollingsworth-Cox:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the subject product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested (notification of alternate brand names "Ortho Kudzu MAX Tough Brush Killer Concentrate," Ortho Poison Ivy MAX Tough Brush Killer Concentrate," "Ortho Poison Oak MAX Tough Brush Killer Concentrate," and "Ortho Wild Blackberry MAX Tough Brush Killer Concentrate") falls within the scope of PRN 98-10. The label submitted with the application has been date-stamped "Notification" and will be placed in our records.

If you have any questions, please call me directly at (703) 305-1243 or Susan Stanton of my staff at (703) 305-5218.

Sincerely,

Kathryn Montague, Product Manager 23

Susan L. Stanton for

Subject:

Notification of Alternate Brand Name per PR Notice 98-10 Ortho Brush-B-Gon Brush Killer

EPA Reg. No. 239-2491

Dear Ms. Montague:

Please accept the enclosed notification of the following Alternate Brand Names for Ortho Brush-B-Gon Brush Killer, EPA Reg. No. 239-2491:

- Ortho® Kudzu MAX™ Tough Brush Killer Concentrate
- Ortho[®] Poison Ivy MAX[™] Tough Brush Killer Concentrate Ortho[®] Poison Oak MAX[™] Tough Brush Killer Concentrate
- Ortho® Wild Blackberry MAX[™] Tough Brush Killer Concentrate

The following documentation in support of this submission is included:

- Application of Pesticide Registration Form 8570-1
- Two (2) copies of the revised master label
- One (1) copy of the revised master label with changes marked and highlighted

Should you have any questions or require additional information, please do not hesitate to contact me at 937-578-5205 or wendy.hollingsworth-cox@scotts.com.

Sincerely,

Wendy Hollingsworth-Cox

<u>Underline text is new</u>. Strike-through text is being deleted.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

IMPORTANT: Do not use on or around edible feed or food crops or areas where grazing is allowed.

[icon]

MIXING INSTRUCTIONS

Tank Sprayer

Add 4 fl. oz. (½ cup) to 1 gal of water.

Ortho® Dial'N Spray®

- Set dial to 4 oz.
- For each gal of spray add 4 fl. oz. (½ cup) to sprayer jar.
- DO NOT add water.
- · After spraying, unused product can be poured back into its original container.

1 Tablespoon (Tbs) = 3 teaspoons (tsp)

1 fl. oz. = 2 Tbs

4 fl. oz. = $\frac{1}{2}$ cup

HOW TO APPLY [icon]

- Use coarse spray pattern to reduce drift to desirable plants.
- Spray weeds to thoroughly wet foliage, stems and trunk.
- Do not spray plants or grasses you like they may die too. Foliage spray not recommended for weed control in lawns.
- If weeds are growing around desirable plants, shield plants from drift with a sheet of cardboard or plastic; or cut weeds at base & treat as directed for stumps.
- If desirable plants are accidentally sprayed, rinse off immediately with water.
- Amount of spray needed for brush control will depend on density of brush in areas to be treated. Rate of application may range from 4 oz/gal/100 [square feet] [sq. ft.] [ft²] for dense areas to 4oz/gal/400 [square feet] [sq. ft.] [ft²] for lighter areas of brush.

[OR]

HOW TO APPLY [FOLIAGE SPRAY]:

Mix 4 fl. oz. per gal water and apply to thoroughly wet all leaves, stems, and trunks. Application to mature foliage is preferred. Use low pressure and coarse spray pattern to reduce drift which may damage desirable vegetation. Wilting or other symptoms will occur in 2 to 6 weeks. Certain hard-to-control species, such as Poison Oak, Poison Ivy, Blackberries, and Honeysuckle may require retreatment.

Amount of spray needed for brush control will depend on density of brush in areas to be treated. Rate of application may range from 4 oz/gal/100 [square feet] [sq. ft.] [ft²] for dense areas to 4oz/gal/400 [square feet] [sq. ft.] [ft²] for lighter areas of brush.

EPA Reg. No. 239-2491

Bold, italicized text is information for the reader and is not part of the label. [Bracketed information is optional text]. Text separated by / denotes and/or options. Underline text is new. Strike-through text is being deleted.

To Kill Stumps/For Stumps

- Apply product undiluted with a paint brush to the entire freshly cut stump, including the cut surface, remaining trunk & exposed roots.
- Do not reuse paint brush. Wrap brush in newspaper & [and] put in trash.

To Kill Vines/For Vines

- If weeds are growing up poles, fences, or tree trunks with mature bark, spray to thoroughly cover weeds up to a height of 3 to 4 feet [ft.]. Tree bark is mature if you scratch the bark with your fingernail and do not find any green tissue.
- If weeds are climbing shrubs or green-barked trees, cut weeds at base & [and] treat as directed for stumps.

[OR]

Stump & Vine Killing: To kill stumps of trees such as Alder, Choke Cherry, Elm, Maple, Oak, Persimmon and Willow. Apply product undiluted with a paint brush to the entire freshly cut stump, including the cut surface, remaining trunk and exposed roots.

Vine Killing: When vines such as Poison Oak, Poison Ivy, etc., grow around desirable plants, cut the vine first and treat as directed for stump killing.

Do not reuse paint brush. Wrap brush in newspaper and put in trash collection.

[OR]

Apply product undiluted by flipping up the spout on the cap and gently squeezing bottle to cover the entire freshly cut stump. Close spout when finished.

Note: To kill small undesirable woody plants (as listed), cut plant off at ground level and treat freshly cut stump. This prevents regrowth without the unsightliness of the dying plant being present in landscaping. **Keep off desirable plants.**

WHEN TO APPLY [icon]

- Apply when weeds are leafed out and actively growing.
- Apply when air is calm to prevent drift to desirable plants.
- Rain 2 hours after application will not reduce effectiveness.
- Wilting or yellowing will occur in 2 to 6 weeks.
- Hard to kill weeds may require a repeat application if regrowth occurs.

Note: Contact with Poison Oak or Poison Ivy anytime of the year can cause an allergic reaction. Handle dead plants with rubber gloves. Dispose of plants & [and] rubber gloves in

[LAWN WEED CONTROL: [Cool Season Grasses-Bluegrass, Fescue, Ryegrass]

For control of Dandelion, Oxalis, White Clover, Pennywort, Black Medic, Plantains, Wild Geranium, Florida Pusley, Evening Primrose, Red Sorrel and Ironweed.

- Apply 4 tsp per gal of water to treat 200 sq. ft. (or 4 fl. oz .per 6 gal of water to treat 1,200 sq. ft.).
- May be applied with an ORTHO Dial'N Spray Hose-End Sprayer or tank-type sprayer anytime weeds are actively growing.
- If lawn needs watering, water thoroughly before application. Make new dilution for each use.

Hardy Weeds: For hard to control weeds or to control any missed in first application, make a second application in 2 to 3 weeks if necessary.

Important: Do not use this product for controlling weeds in flower or vegetable beds or around shrubs or ornamental plantings. Do not use on St. Augustine, Centipede, or Bermudagrass lawns.

IMPORTANT

BRUSH-B-GON Brush Killer [Brand Name] is non-selective. Do not apply to or clean equipment around desirable vegetation or ornamental plant as injury may result. Do not apply when drift may occur.]

Mixing Instructions

Amount to Use:

- 1 fl. oz. (2 Tbs) per gallon of water for each 200 sq. ft.
- When using Ortho Dial'N Spray: Set dial to 1 oz. Add 6 fl. oz. (12 Tbs) to sprayer jar. DO NOT add water. Spray evenly over 1200 sq. ft. until jar is empty.

Tablespoon (Tbs) = 3 teaspoon (tsp)

1floz = 2 Tbs

How to Apply [Measure] [icon]

- To treat entire lawn: Use a tank or hose-end sprayer. Measure lawn. Calculate square feet by multiplying length times width. Spray evenly over measured area.
- To spot treat individual weeds in lawn: Use a tank sprayer.

When to Mow & Water [Water] [Mow] [icon]

- For best results avoid mowing 1 to 2 days before or after application.
- If lawn needs watering, water thoroughly before application.
- Rain or watering within 24 hours may reduce effectiveness.

When to Apply [icon]

- Apply when weeds are actively growing.
- Spray when temperature is below 90° F.
- Spray when air is calm to prevent drift to desirable plants.
- Reapplication can be made in 2 to 3 weeks if necessary.
- Newly seeded lawn can be sprayed after second mowing.

IMPORTANT

If an ornamental shrub or tree is in the lawn, keep spray off foliage and exposed roots. Not for use on Bahia, Bermuda, Centipede, Kikuyu or St. Augustine lawns. Not for use on or around fruits, vegetables or flowers.

Bare spots can be planted with grass seed 1 week after application.

STORAGE AND/& DISPOSAL

[icon]

Do not contaminate food or feed by storage and disposal.

PESTICIDE STORAGE: Store this product in its original container and keep out of reach of children and domestic animals.

PESTICIDE DISPOSAL AND/& CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. **If empty:** Offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS

[icon]

CAUTION: Harmful if absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing during and after application. This product may cause skin sensitization reactions in some people. Wear long-sleeved shirt, long pants, shoes and socks when applying this product. Remove and wash contaminated clothing before reuse. Do not apply this product in a way that will contact any person or pet, either directly or through drift.

[Reentry icon] Do not enter or allow people or pets to enter treated areas until spray has dried.

User Safety Recommendations:

Users should:

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Wash thoroughly with soap and water after handling.

FIRST AID [icon

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

Note to Physicians: Emergency Information call 1-800-225-2883

EPA Reg. No. 239-2491

Bold, italicized text is information for the reader and is not part of the label. [Bracketed information is optional text]. Text separated by / denotes and/or options. Underline text is new. Strike through text is being deleted.

ENVIRONMENTAL HAZARDS: Do not apply directly to water. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

This product contains a chemical that has properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

Optional Marketing Claims

The following claims may appear on any label panel and may be preceded by "new" or "now" for six (6) months in accordance with Federal and State regulations.

Appropriate formula and company specific information will be inserted on Final Printed Label to replace "X"
