

ORTHENE[®] PCO Spray Concentrate
ORTHO

ORTHENE[®] PCO Spray Concentrate

General Information: Use ORTHENE PCO Spray Concentrate for residual pest control in the areas listed by application as a 0.75% or 1.0% spray. Use the 0.75% rate for control of light infestations on nonporous surfaces and the 1.0% spray to quickly reduce heavy infestations. Activity of porous surfaces may be limited. Repeat treatment as needed.

Not for use in feed processing areas in feed handling establishments.

Directions

Apply within Residential Buildings including Homes and Apartments, and within Industrial, Institutional and Commercial Buildings including Restaurants, Warehouses, Stores, Hospitals, Hotels, Manufacturing Plants and Ships.

Desired Concentration (Wt.-%)	Grams Product in 1 Gal. Water	Ounces Product in 1 Gal. Water
3.4%	293	10
1%	390	14

Cockroaches, Ants, Crickets and Firebrats. Apply as a coarse, low pressure spot spray, crack and crevice spray or with a paint brush to localized areas where these pests are found or normally occur including corners of rooms and closets, around television sets and radios along and behind baseboards, around and under sinks, dishwashers, washing machines, refrigerators, stoves and cabinets, areas where plumbing enters or leaves the room, or other areas inhabited by these pests.

Note: A period of 3 to 7 days may be necessary for ORTHENE PCO Spray Concentrate to reach its maximum effect on cockroaches.

Earwigs, Pillbugs and Sawbugs. Apply as a coarse, low pressure spot spray to areas around doors and windows, storage areas, baseboards, etc.

Pantry Pests—Exposed Stages (Confused Flour Beetle, Indian Meal Moth, and Trogoderma). Apply ORTHENE PCO Spray Concentrate at 1.0% as a spot application to pantry and cupboard shelves where food containers suspected of being infested are stored. Prior to spraying, remove all foodstuffs, shelving paper and utensils. Do not replace the food packages until the surface has dried. Replace shelving paper. Infested food packages should be destroyed.

For Application as Spot Treatment. Spot treatments may be applied at moderate pressures (up to 35 psi) using a coarse fan tip. For spot treatments, individual spot will exceed two (2) square feet.

Mix ORTHENE PCO Spray Concentrate according to dilution chart. Apply as a SPOT TREATMENT using coarse fan spray to areas inhabited by cockroaches. Treat areas such as baseboards, under and behind refrigerators, stoves, dishwashing and other equipment, as well as in storage areas, closets, shoe cabinets, around windows, doors and water pipes. Spot treatments should also include undersides of drawers, shelves and other sites where cockroaches frequent or travel.

FOOD HANDLING ESTABLISHMENTS (Food and Non-Food Areas). Application shall be limited solely to spot and/or crack and crevice treatment in food handling establishments where food and food products are held, processed, prepared or served. Spray concentration shall be limited to a maximum of 1.0% active ingredient. For crack and crevice treatments, equipment capable of delivering a pin stream of insecticide shall be used. For spot treatments, a coarse, low pressure spray shall be used to avoid contamination or splashing of the spray. Avoid contamination of food or food processing surfaces.

Do not allow spray or mist to contact food, feedstuffs or water supplies. Dishes and food handling utensils should be thoroughly washed in soap and water, if exposed to contamination by the application of this product. Do not allow children or pets to contact treated surfaces until spray has dried.

Caution: Do not apply directly to carpet as staining may occur.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION

Harmful if swallowed. Avoid contact with eyes, skin and clothing. Wash hands after use. Remove and launder contaminated clothing before reuse.

STATEMENT OF PRACTICAL TREATMENT

If swallowed, promptly drink a large quantity of water and induce vomiting. Get medical attention immediately. In case of eye contact, immediately flush eyes with fresh water for 15 minutes. Get medical attention if irritation persists.

Note to Physicians: Emergency Information: call (415) 233-3737. Acephate is a cholinesterase inhibitor. If signs of cholinesterase inhibition appear, atropine is antidotal. 2-PAM is also antidotal and may be used in conjunction with atropine but should not be used alone.

ENVIRONMENTAL HAZARDS

Keep out of any body of water.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL AND CARTON. USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS AND WITH APPLICABLE STATE AND FEDERAL REGULATIONS.

STORAGE AND DISPOSAL

PROHIBITIONS[®]

Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. Open dumping is prohibited.

STORAGE

Keep pesticide in original container.
Do not put concentrate or dilute into food or drink containers.
Store in cool, dry place.
Protect from excessive heat.
Do not store near heat, feed or food.

PESTICIDE DISPOSAL

Pesticide spray mixture or rinse water that cannot be used according to label instructions must be disposed of according to applicable Federal, state or local procedures.

CONTAINER DISPOSAL

After insuring that both used packets and outer containers are empty, crush and dispose of in trash container.
