Richmond, CA 94804-0036

Attention: Ms. Jackie DiMaggio

Gentlemen:

Subject: Difolatan 80 Water Dispersible Granules
EPA Registration No. 239-2495
Your Applications Dated October 2 and October 11, 1985

The labeling submitted is acceptable for registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended September 30, 1978, provided the following revisions are made:

1. A crop rotation statement must be added for all foliar applied use-patterns. This statement should read as follows:

   Do not rotate foliar treated crops with crops other than those with registered captafol uses.

2. Add the reentry restriction: "Conspicuously post reentry information at site of application."

Submit five (5) printed copies of the final printed labels before you release the product for shipment.
If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA Section 6(e). Your release for shipment of the product under this labeling constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

Henry H. Jacoby
Product Manager (21)
Fungicide-Herbicide Branch
Registration Division (TS-767)

Enclosure
**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS & DOMESTIC ANIMALS**

*WARNING* 

Chemical is extremely toxic to fish. Fish may be killed at recommended application rates. Do not apply directly to water. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas.

**DIRECTIONS FOR USE**

- **Mixing:** Use Federal law to use this product in a manner consistent with its labeling.
- **Applying:** Read entire label. Use strictly in accordance with precautionary statements and directions, and with applicable state and federal regulations.
- **Reentry Statement:** Keep all unprotected persons out of operating areas or vicinity where they may be exposed to drift.
- **Prohibiting:** Do not allow persons to enter treated areas within 24 hours following application of spray, unless protective clothing is worn.
- **Caution:** Certain states may require more restrictive reentry intervals; consult your State Department of Agriculture for further information. Written or oral warnings regarding use of protective clothing, reentry times, and accidental exposures must be given to workers who are expected to be in treated areas or in areas about to be treated.

**STORAGE AND DISPOSAL**

**Prohibiting:** Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment.

**Open dumping is prohibited.**

**Storage:** Keep pesticide in original container. Do not store in a cool, dry place. Do not store near or in areas accessible to children.

**Pesticide Disposal:** This product is extremely hazardous. Improper disposal of excess pesticide may be a violation of Federal law. These wastes cannot be disposed of by use according to labeling instructions. Contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER DISPOSAL:** Completely empty container by shaking and topping sides and bottom to loosen clinging particles. Empty residue into application equipment. Do not re-use container. Dispose of liner and container in a sanitary landfill or by incineration if allowed by State and local health officials.

**DIRECTIONS**

Do not add surfactant except where specifically indicated below.

- Wear mid-forearm to elbow length chemical resistant gloves, and full body clothing during handling and application.

**APPLES:** Apple Scab (for protection in pink or petal fall stage only) — Spraying Application in dormant or up to the Green Stage: Midwestern and Eastern States Only. For Protection to Harvest — Apply 15 lbs. in 100 to 400 gallons of spray per acre. Use the high gallonage for large fields, per-acre treatments to provide uniform type spray oils. Dilute Precautionary Statements. Applications of DIFOLATAN 80 in NEUDIR® green stage may cause control of secondary disease or another fungicide. If the 15 lbs. rate of DIFOLATAN 80 is applied in the dormant period, it is a fungicide. Do not apply DIFOLATAN 80 on dollars, in 100 to 400 gallons of water in a tank to rinse the field, or to mix with fertilizer or other chemicals. DIFOLATAN 80 is a systemic fungicide and will move through the leaves to the fruit. Do not apply within 20 days of harvest.

**DIFOLATAN GRANULES**

- Apply 15 lbs. in 100 to 400 gallons of spray per acre. Use the high gallonage for large fields, per-acre treatments to provide uniform type spray oils. Dilute Precautionary Statements. Applications of DIFOLATAN 80 in NEUDIR® green stage may cause control of secondary disease or another fungicide. If the 15 lbs. rate of DIFOLATAN 80 is applied in the dormant period, it is a fungicide. Do not apply DIFOLATAN 80 on dollars, in 100 to 400 gallons of water in a tank to rinse the field, or to mix with fertilizer or other chemicals. DIFOLATAN 80 is a systemic fungicide and will move through the leaves to the fruit. Do not apply within 20 days of harvest.

**ORTHO AGRO MULL®**

- Apply 15 lbs. in 100 to 400 gallons of spray per acre. Use the high gallonage for large fields, per-acre treatments to provide uniform type spray oils. Dilute Precautionary Statements. Applications of DIFOLATAN 80 in NEUDIR® green stage may cause control of secondary disease or another fungicide. If the 15 lbs. rate of DIFOLATAN 80 is applied in the dormant period, it is a fungicide. Do not apply DIFOLATAN 80 on dollars, in 100 to 400 gallons of water in a tank to rinse the field, or to mix with fertilizer or other chemicals. DIFOLATAN 80 is a systemic fungicide and will move through the leaves to the fruit. Do not apply within 20 days of harvest.

**ORTHOD®**

- Apply 15 lbs. in 100 to 400 gallons of spray per acre. Use the high gallonage for large fields, per-acre treatments to provide uniform type spray oils. Dilute Precautionary Statements. Applications of DIFOLATAN 80 in NEUDIR® green stage may cause control of secondary disease or another fungicide. If the 15 lbs. rate of DIFOLATAN 80 is applied in the dormant period, it is a fungicide. Do not apply DIFOLATAN 80 on dollars, in 100 to 400 gallons of water in a tank to rinse the field, or to mix with fertilizer or other chemicals. DIFOLATAN 80 is a systemic fungicide and will move through the leaves to the fruit. Do not apply within 20 days of harvest.

**ORTHOFOL®**

- Apply 15 lbs. in 100 to 400 gallons of spray per acre. Use the high gallonage for large fields, per-acre treatments to provide uniform type spray oils. Dilute Precautionary Statements. Applications of DIFOLATAN 80 in NEUDIR® green stage may cause control of secondary disease or another fungicide. If the 15 lbs. rate of DIFOLATAN 80 is applied in the dormant period, it is a fungicide. Do not apply DIFOLATAN 80 on dollars, in 100 to 400 gallons of water in a tank to rinse the field, or to mix with fertilizer or other chemicals. DIFOLATAN 80 is a systemic fungicide and will move through the leaves to the fruit. Do not apply within 20 days of harvest.

If in eyes, wash eyes for at least 15 minutes and see a doctor. For skin contact, wash immediately with soap and water. See a doctor if irritation occurs or rash develops. If swallowed, give water or milk to drink and telephone for medical advice. Consult medical personnel before inducing vomiting. If medical advice cannot be obtained, then take person and product container to the nearest medical emergency treatment center or hospital. If inhaled, remove person from exposure area.
DIFOLATAN® 80
Water Dispersible Granules

A WATER DISPERSE GRANULAR FUNGICIDE FOR PLANT DISEASE CONTROL

Active Ingredient

*Capitalf 80%
Inert Ingredients 20%

 cis-N-(1,2,2-trifluoroethyl)bis(4-cyclohexene-1,2-dicarboximide)

KEEP OUT OF REACH OF CHILDREN
DANGER - PELIGRO

Product 5482 Made in U.S.A.
R Form 10108-L
EPA Reg. No. 239-2495

NET WEIGHT 25 POUNDS
Scab, Melanose and Rust Mite - Apply 15 lbs. DIFOLATAN 80 Water Dispersible Granules per acre from late dormant through tight bloom. With severe melanose pressure follow DIFOLATAN fungicide with a recommended postbloom fungicide. DIFOLATAN 80 Water Dispersible Granules can also be applied at 6½ to 12½ lbs. per acre from tight bloom through 3 weeks after petal fall. DIFOLATAN 80 Water Dispersible Granules may cause a rind spotting when applied to young citrus fruit. This spotting may be objectionable on fruit grown for the fresh market.

TEMPLE ORANGES (Florida Only): Scab and Rust Mite - Apply at 6½ to 12½ lbs. DIFOLATAN 80 Water Dispersible Granules per acre from 2/3 petal fall through 3 weeks after petal fall. If heavy disease pressure is anticipated, based on past scab incidence in the grove and humid scab infection conditions, apply in late dormant and again from 2/3 petal fall through 3 weeks after petal fall.

RUST MITE CONTROL NOTE: When DIFOLATAN fungicide is applied as above by ground or aerial application for disease control and when rust mites first appear, rust mites will also be controlled. A recommended miticide may be necessary for late season infestations.
DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS, AND WITH APPLICABLE STATE AND FEDERAL REGULATIONS.

DEFINITION STATEMENT

Keep all unprotected persons out of operating areas or vicinity where there may be danger of drift.

DIRECTIONS FOR USE

Do not allow persons to enter treated areas within 24 hours following application unless protective clothing is worn.

Certain states may require more restrictive safety intervals; consult your State Department of Agriculture for further information.

Written or oral warning regarding use of protective clothing, protection times and additional exposure must be given to workers who are expected to be in treated areas or in areas adjacent to treated areas.

STORAGE AND DISPOSAL

PROHIBITIONS

Do not contaminate water, food or feed by storage, disposal or cleaning of equipment.

Open dumping is prohibited.

STORAGE

Keep pesticide in original container. Do not put pesticide on clothes to be washed or wear pesticide on clothing. Keep in a cool, dry place.

DO NOT STORE CLOTHES OR CLOTHING WITH PESTICIDE ON IT.

Do not store container, disposal of liner and container in a sanitary landfill or by incineration if allowed by state and local authorities.

CONTAINER DISPOSAL

Empty containers and re-useable containers must be detached from pesticide containers and flushed with water to remove pesticide residue. Containers must be disposed of in accordance with state and local regulations.

DIRECTIONS

DO NOT ADD SURFACTANT EXCEPT WHERE SPECIFICALLY INDICATED BELOW.

Use mid-formulation to allow length chemical resistant gloves, and full body clothing during handling and application.

APPLICATION: Apple Scab (for protection to pluck or petal fall stage to prevent primary infection stage only) — Spraying Application in dormant or early spring — Apply 15 lbs. in 100 to 400 gals. of spray per acre. Use the high
