Spray 5-10 seconds for average room. Keep room closed for 15 minutes after spraying. Ventilate room thoroughly before reentry. Sweep up and destroy fallen insects.

To Kill Cockroaches, Ants, Crickets, and Spiders (including Black Widow Spiders): Contact as many insects as possible with the spray in addition to thorough spraying of all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, hidden surfaces under sinks, behind stoves and refrigerators, food storage areas and wherever these pests are suspected of hiding. To kill ants spray directly on ants and treat doors around window frames, ant trails and other areas of entry. Repeat as necessary.
