Dear Mr. Taylor:

Enclosed are five copies of our final printed labeling for GroundClear® SuperEdger™ Grass & Weed Control which is an additional brand name for ORTHO Fence & Grass Edger Formula II, EPA Reg. No. 239-2516. These labels illustrate the addition of the water drop to the front panel and the change from mature to immature weeds in the WEEDS CONTROLLED section of the label. We trust this should satisfy your requirements for finished label.

If you have questions, give me a call at (510) 355-3339.

Sincerely,

Katherine A. Buteau

GroundClear®  
**SuperEdger™**  
 Grass & Weed Control

Gives complete kill of weeds and grasses and prevents weed and grass seeds from sprouting for up to 3 months. Can be used over root zones without harming ornamental plants.

**WHERE TO USE:** Apply only where no vegetation is desired, such as driveways, along fences, sidewalks, walkways, patios, curbs, gutters and even cracks in sidewalks.

**DO NOT USE IN VEGETABLE GARDENS.**

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONS AND DIRECTIONS.**

**WHERE TO USE:** Apply only where no vegetation is desired, such as driveways, along fences, sidewalks, walkways, patios, curbs, gutters and even cracks in sidewalks. **DO NOT USE IN VEGETABLE GARDENS.**

**WHEN TO APPLY:** Apply to actively growing weeds and grasses. Visible effects will occur within one week with complete kill in 2 to 4 weeks. If rainfall occurs within 6 hours, repeat treatment may be required. To avoid drift to desirable plants, apply only when air is calm. If leaves of desirable plants are accidentally sprayed, immediately wash off plants with water.

**HOW TO APPLY:** Remove cap and be certain that applicator head is screwed on firmly. Invert jug and apply to thoroughly cover unwanted vegetation. For killing vegetation around trees, shrubs and buildings and edging around lawns, fences and sidewalks, hold the jug about 2 to 6 inches from the area to be treated depending upon desired width. The width of the spray pattern may be adjusted by either raising or lowering the jug. One gallon will cover a band 2 inches wide and 1200 feet long.

For controlling weeds in walks and patios, hold jug at about waist height away from body to avoid contact with skin or clothing. Walk slowly making sure that all weeds are thoroughly covered.

**WEEDS CONTROLLED:** NOTE: For best control, apply to actively growing, immature weeds. Heavy lawn grass or well established difficult to control perennial weeds, such as Bermudagrass, Nimblewit, Dandelion, or Canada Thistle may require a repeat application if regrowth occurs.
