

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Causes eye damage. Do not get in eyes. Harmful if swallowed. Avoid contact with skin or clothing. Keep children and pets off treated areas until spray is completely dry. When applying this product, wear chemical resistant gloves. Wash nondisposable gloves thoroughly with soap and water before removing.

STATEMENT OF PRACTICAL TREATMENT: In case of eye contact, immediately flush eyes with fresh water for 15 minutes and get medical attention. If swallowed, give plenty of water or milk to drink and telephone for medical advice. If medical advice cannot be obtained, then take person and product container to the nearest medical emergency treatment center or hospital. In case of skin contact, wash skin with plenty of soap and water. Get medical attention if irritation persists.

Note to Physicians: Emergency Information — call (415) 233-3737.

ENVIRONMENTAL HAZARDS: This product is toxic to aquatic invertebrates. Drift or runoff may adversely affect aquatic invertebrates and nontarget plants. Do not apply directly to water or wetlands (swamps, bogs, marshes, and potholes). Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL AND PAMPHLET AND USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS ON BOTH.

WEED-B-GON READY-SPRAY Lawn Weed Killer is designed for use through the attached sprayer for controlling of broadleaf lawn weeds.

DIRECTIONS FOR USE ON LAWNS: For control of Dandelions, Chickweed, Plantains, Clover, and other listed weeds, apply WEED-B-GON READY-SPRAY Lawn Weed Killer when weeds are actively growing. Spray weeds such as Wild Garlic and Wild Onions when they appear in late fall and again in early spring. Water lawn thoroughly 1 to 2 days before application. Do not water for 48 hours after application. Do not mow for one week before treating. Spray entire lawn, wetting weeds and lawn grasses; do not saturate. Spray when air is calm to avoid spray drift that might injure desirable ornamental plants. Adjust water pressure at faucet to give a coarse spray which is less likely to drift. Do not apply when temperatures are expected to exceed 85° F within 24 hours following application. Temporary injury may occur on Bent, Bermuda, Red Fescue, Centipede and Carpet grasses. DO NOT apply to Dichondra, Lippia, St. Augustine, and Clover lawns.

HOW TO USE: Shake well before using. Connect attached spray nozzle to garden hose. Turn the green water control ON/OFF valve on top of spray nozzle to the "OFF" position. Turn on water at faucet. Extend hose to the farthest area of lawn to be treated and work back towards faucet so that you do not walk over treated areas. Using a coin or key, rotate the small green product control valve located near front of nozzle forward to the "OPEN" position.

To BEGIN spraying, point spray nozzle towards lawn and turn the green water control valve to the "ON" position. The water automatically mixes with the product. Walk at a steady pace while spraying using an even sweeping motion, slightly overlapping treated areas. Refer to graduated scale on side of container to guide coverage (example: when bottle is half empty, 2,000 sq. ft. of area (25' x 100') should have been covered).

To STOP spraying, turn green water control valve to the "OFF" position. Rotate small green product control valve back to "CLOSED" position. Turn off water at faucet. To relieve pressure, turn green water control valve to "ON" position and point sprayer away from any desirable plants before removing nozzle from hose.

ORTHO

**WEED-B-GON®
READY-SPRAY™
Lawn Weed Killer**

Kills: Dandelions, Chickweed, Plantains, Henbit, Wild Onions, and many other listed weeds.

Ready-to-use concentrate mixes automatically with water through the attached hose-end sprayer.
