### Roundup Sure Shot Foam – Fast Acting Formula

is formulated for spot treating of individual weeds. Ideal for tough to reach weeds found in flowerbeds and gardens. Use to edge along driveways, walkways or fences, in gravel or mulch, around trees and shrubs and other areas in your yard. Roundup Foam produces a "non-drift" visible stream that foams on contact and lasts for a few minutes allowing you to easily see the treated weeds. Visible effects usually occur within hours and complete kill in 1 to 2 weeks. Roundup kills weeds by stopping the production of a substance found only in plants. Any Roundup not absorbed by the plant breaks down into natural materials. Roundup will not move in or on the soil to untreated plants.

**Used by American Zoo and Aquarium Association  
Member Zoos to Effectively Control Weeds**
