### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

#### AMOUNT TO SPRAY

Measure lawn. Calculate square feet by multiplying length times width. Use the amount indicated for your lawn variety.

**FOR SENSITIVE LAWNS:** 8 oz (1/4 bottle) treats 3,200 sq ft. Bentgrass, Buffalograss, Centipedegrass & St. Augustinegrass (EXCEPT Floratam, a variety of St. Augustinegrass widely grown in Florida)

**FOR HARDY LAWNS:** 8 oz (1/4 bottle) treats 1,600 sq ft. Bahiagrass, Bermudagrass, Fescue, Kentucky Bluegrass, Perennial Ryegrass

#### HOW TO USE THE READY-SPRAY® SYSTEM

##### CONNECT

1. Shake well before using.
2. Connect sprayer to hose. Be sure larger green ON/OFF switch located at hose end is set to "OFF".
3. Turn on water.
4. Activate smaller green button at sprayer opening to "OPEN" position. (Coin or key may be needed to activate button.)

##### SPRAY

1. To begin spraying, point nozzle in the direction you want to spray.
2. Turn larger green ON/OFF switch at hose end counterclockwise to on position.
3. Spray evenly over measured area.

##### FINISH

1. To stop spraying, turn larger green ON/OFF switch clockwise to "OFF".
2. Deactivate smaller green button at sprayer opening to "CLOSED" position.
3. Turn off water.
4. Relieve water pressure by turning larger green ON/OFF switch counterclockwise to on position until water slows to a drip. Then, turn same ON/OFF switch back to "OFF".
5. Disconnect sprayer from hose.

#### FOR BEST RESULTS

##### MOW

Do not mow for 1 to 2 days after application.

##### WATER

- If soil is dry, water 1 to 2 days before application.
- Rain or watering 6 hours after application will not wash away effectiveness.

##### WHEN TO APPLY

- Spray when:
  - weeds are small and actively growing
  - temperature is below 90°F
  - air is calm to avoid spray drift onto landscape plants as contact with foliage may injure flowers, shrubs, trees and other desirable plants
- Reapplication can be made in 2 to 3 weeks if necessary.
- Newly seeded lawn can be sprayed after first mowing.
- Bare spots can be planted with grass seed 1 week after application.

#### IMPORTANT

If an ornamental shrub or tree is in the lawn, keep spray off foliage and exposed roots. St. Augustinegrass, Centipedegrass or Bermudagrass lawns may have delayed green-up if this product is used when lawns are emerging from dormancy or when temperature drops below 45°F within 72 hours of application. Do not spray Carpetgrass, Dichondra or desirable clovers. Do not use on or around fruits, vegetables or flowers. The maximum number of broadcast applications per treatment site is 2 per year. Do not exceed specified dosages for any area.

#### HOW IT WORKS

Because broadleaf weeds and grasses grow differently, Weed-B-Gon® kills broadleaf weeds without harming lawns. Weed-B-Gon singles out weeds, enters through leaves and moves inside the weed to the roots.
