U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs  
Registration Division (7505P)  
Ariel Rios Building  
1200 Pennsylvania Ave., NW  
Washington, D.C. 20460

EPA Reg. Number:

239-2690

Date of Issuance:

JUN 24 2009

NOTICE OF PESTICIDE:

Registration  
 Reregistration  
(under FIFRA, as amended)

Term of Issuance:

Name of Pesticide Product:

Weed Be-Gon Spot Weed Killer Concentrate

Name and Address of Registrant (include ZIP Code):

The Scotts Company / The Ortho Group  
14111 Scottslawn Road  
Marysville, OH 43041

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is reregistered in accordance with FIFRA provided that you:

- 1) Submit and/or cite all data required for registration/reregistration review of your product when the Agency requires all registrants of similar products to submit data.
- 2) Revise the size of the font of "KEEP OUT OF REACH OF CHILDREN" and "CAUTION" to comply with 40 CFR 156.10

Signature of Approving Official:

Joanne Miller  
Product Manager 23  
Herbicide Branch  
Registration Division (7505P)

Date:

JUN 24 2009

- 3) Change the signal word "WARNING" to "CAUTION."
- 4) Change the Hazards to Humans and Domestic Animals section to:

"CAUTION  
Harmful if swallowed. Harmful if absorbed through skin. Harmful if inhaled. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Avoid breathing spray mist or vapor. Wear long-sleeved shirt, long pants, shoes, socks and chemical-resistant gloves made of any waterproof material."

- 5) Per the MCPPP-p and 2,4-DP-p REDs, add a 30-day retreatment interval to the use directions.
- 6) Place the First Aid section in a box. Place this section in front of the Directions for Use section. Place the Hazards to Humans and Domestic Animals section after the First Aid section. Place the Environmental Hazards section after the Hazards to Humans and Domestic Animals section.

A stamped copy of the label is enclosed for your records. You must submit one copy of the final printed label before you release the product for shipment. Products shipped after 12 months from the date of this letter or the next printing of the label whichever occurs first, must bear the new revised label. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA. This label supercedes all previously accepted labels. If you have any questions please call Erik Kraft at 703-308-9358 or email at Kraft.Erik@epa.gov.

ragweed, red clover, red sorrel, rush, Russian thistle, St. Johnswort, sheep sorrel, shepherd's-purse, smartweed, sneezeweed, Southern wild rose, sowthistle, spanishneedle, spatterdock, speedwell, spurge, spurweed, stinkweed, stitchwort, sumac, sunflower, sweet clover, tarweed, thistle, toadflax, tumbleweed, velvetleaf, veronica, vervain, vetch, Virginia buttonweed, Virginia creeper, wild aster, wild carrot, wild garlic, wild geranium, wild lettuce, wild onion, wild radish, wild rape, wild strawberry, wild sweet potato, willow, witchweed, woodsorrel, wormseed, yarrow, yellow rocket, and other broadleaf weeds.]

## WHEN TO USE

- Use whenever weeds are actively growing in your lawn.
- The best time to apply is in the Spring when weeds are small and actively growing with temperatures below 90°F.
- Winter weeds grow in the Fall. An application then can prevent many serious weed problems the following spring.

## For Best Results

- Do not mow for 1 to 2 days before or after application
- If lawn needs watering, water thoroughly before application
- 0.25 inches of rain or watering 2 hrs after application will not wash away effectiveness.
- Do not apply if rainfall is expected within 2 hours
- After applying this product, weeds will begin to show visible signs of leaf curl within a few days. One application should be sufficient. Reapplication can be made in 3-4 weeks if the weeds have not been killed.
- Spray when air is calm to avoid any spray drift that might injure desirable plants

## Important Application Information

- ~~○ Newly seeded lawns can be sprayed after first mowing.~~
- ~~○ Do not apply this product in a way that will contact any person or pet, either directly or through drift.~~
- Do not apply to newly seeded grasses until they have been mowed 3 times.
- Bare spots can be planted with grass seed 3 [- 4] weeks after application
- Do not use this product for controlling weeds around ornamental shrubs, trees or plants, keep spray off foliage and exposed roots
- St. Augustinegrass, Centipedegrass, and Bermudagrass lawns may have delayed green-up if this product is used when lawns are emerging from dormancy in the Spring or when temperature drops below 45°F within 72 hours of application.
- Do not spray on Carpetgrass, Dicondra, or desirable Clover lawns.
- Do not use on or around fruits, vegetables, or flowers.
- St. Augustine lawns may be yellowed following application but will turn green in 2 to 3 weeks. **Do not use on Floratam, a variety of St Augustine grass.**
- [Note:] Some hybrid Bermuda grasses may be sensitive to this product. Contact your local Extension Service weed control specialist.
- **DO NOT SPRAY** grasses if stressed from heat, drought, etc. Slight turf yellowing should disappear after about 1 week.
- When applying to turf, the maximum number of broadcast applications per treatment site is 2 per year.

Underline text is new. ~~Strike-through text is being deleted.~~

~~Note: Some hybrid Bermuda grasses may be sensitive to this product. Contact your local Extension Service weed control specialist.~~

**[Note to PM: Begin Option 1 Application Instructions]**

**How To Apply:**

**Cool Season Grasses** - such as bluegrass, fescue, and rye: [To kill dandelion, wild onion pennywort, plantain, healall and similar weeds:]

**Amount to Use:** Apply with a pump up or hose-end sprayer. For small areas, use 1 fl oz in 1 gallon of water applied to 250 sq ft.

When using **Ortho® Dial 'N Spray® applicator:** Set dial to 1 oz. Add 4 fl oz (8 Tbs) to sprayer jar. **DO NOT ADD WATER.** Spray evenly over 1,000 sq ft until jar is empty. After spraying, unused product must be poured back into its original container.

**Warm Season Grasses** - St. Augustine, bahia, common Bermuda, centipede, zoysia, also for bent:

**Amount to Use:** Use a one-half rate which is 1 Tbs. in one gallon of water applied to 250 sq ft

When using **Ortho® Dial 'N Spray® applicator:** Set dial to 1/2 oz. Add 2 fl oz to sprayer jar. **DO NOT ADD WATER.** Spray evenly over 1,000 sq ft until jar is empty. After spraying, unused product must be poured back into its original container.

**For Spot Treatment:** Put 3 fl oz of Weed Be-Gon Spot Weed Killer Concentrate into an empty gallon container with trigger sprayer. Then add 120 oz of tap water. Adjust spray nozzle to give coarse spray. Aim at center of weed and spray until foliage is wet.]

**[End Option 1 Application Instructions]**

**[Note to PM: Begin Option 2 Application Instructions ALTERNATE APPLICATOR INSTRUCTIONS]**

**How To Apply:**

Determine the square feet area of the lawn to be treated by multiplying the length times width. Example 40 ft X 50 ft = 2,000 sq ft of lawn. Determine the type of lawn grass you have and the correct amount of product needed from the APPLICATION INSTRUCTIONS chart below. Always spray evenly over the lawn.

**Application Instructions**

**Cool Season Grasses** - Bluegrass, Fescues, and Ryegrass

NOTE::

**Bold, italicized text is information for the reader and is not part of the label.**  
[Bracketed information is optional text]. Text separated by / denotes and/or options.  
Underline text is new. ~~Strike-through text is being deleted.~~

32 oz (1 Qt) – Treats 8,000 sq ft.

**Warm Season Grasses** - St. Augustine, Bahia, Common Bermuda, Centipede, Zoysia, and Bentgrass

32 oz (1 Qt) – Treats 16,000 sq ft.

<b>How To Use The Ready-To-Spray System</b>	
Connect	<ol style="list-style-type: none"> <li>1. Shake well before using</li> <li>2. Connect sprayer to hose</li> <li>3. Turn on water faucet.</li> </ol>
Spray	<ol style="list-style-type: none"> <li>1. To BEGIN spraying, point sprayer nozzle in the direction you want spray.</li> <li>2. [Bend small plastic tab back and turn knob clockwise to ON position.] [On the side of the sprayer is a knob used to turn the sprayer on and off. Holding the nozzle in your hand, use your thumb to bend back the small tab next to the knob. Using your other hand, rotate the knob clockwise toward the ON position – water will flow from the nozzle. (The knob may be difficult to turn the first time – a tool such as pliers may be helpful to rotate the knob to the ON position.)]</li> <li>3. Spray evenly over desired area.</li> <li>4. It will take 10-15 minutes to spray the entire contents of this product</li> </ol>
Finish	<ol style="list-style-type: none"> <li>1. [To STOP spraying, bend back the small tab next to the knob. Rotate the knob counterclockwise to the OFF position.] [To STOP spraying rotate the knob counterclockwise to the OFF position.]</li> <li>2. Turn off water supply at faucet.</li> <li>3. Relieve pressure in hose by turning the knob to the ON position until water slows to a drip. Turn knob back to OFF position.</li> <li>4. Disconnect sprayer from hose.</li> </ol>

**[End Option 2 Application Instructions]**

**STORAGE AND / & DISPOSAL**

**PESTICIDE STORAGE:** To be stored in original container and placed in area inaccessible to children.

**PESTICIDE DISPOSAL:** **If empty:** Non-refillable. Do not reuse or refill this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**WARNING**

Causes substantial but temporary eye injury. Harmful if swallowed, inhaled or absorbed through skin. Do not get in eyes or on clothing. Avoid breathing spray mist and contact with skin. Wear goggles or face shield, long pants, long-sleeved shirt, socks, shoes and chemical resistant gloves when mixing, loading or applying this product. After using this product, wash non-disposable gloves thoroughly with soap and water before removing, remove clothing and launder separately before reuse, and promptly and thoroughly wash hands and exposed skin

NOTE::

Underline text is new. ~~Strike-through text is being deleted.~~

EPA Reg. No. 239-2690

9/10

with soap and water. Remove saturated clothing as soon as possible and shower. [After product has been diluted in accordance with the "Directions For Use",] [When using a disposable sprayer,] goggles or face shield are not required. ~~When applying to turf, the maximum number of broadcast applications per treatment site is 2 per year.~~

~~[Reentry icon] Do not allow people (other than applicators) or pets on treatment area during application. Do not allow people or pets to enter the treated area until sprays have dried.~~

## FIRST AID

**If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

**If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

## ENVIRONMENTAL HAZARDS

This pesticide product is toxic to fish and aquatic invertebrates and may adversely affect non-target plants. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. ~~Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark except as noted on appropriate labels.~~ To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters, or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

This product has properties and characteristics associated with chemicals detected in groundwater. The use of this product in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a cistern or well may result in contamination of drinking water or groundwater.

Do not apply directly to or near water, storm drains, gutters, sewers, or drainage ditches. Do not apply with 25 feet of rivers, fish ponds, lakes, streams, reservoirs, marshes, estuaries, bays and oceans. Do not apply when windy. To prevent product run-off, do not over water the
