OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

March 14, 2016

Chris Zemanek
Analyst
Registrations
The Ortho Group
P.O. Box 190
Marysville, OH 43040

Subject: Notification per PRN 98-10 – ABNs (4) minor label changes
Product Name: Ortho Lawn Insect Control
EPA Registration Number: 239-2726
Application Date: 3/3/2016
Decision Number: 514778

Dear Mr. Zemanek:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

The alternate brand names “*Ortho Home Defense Insect Killer for Lawns Granules*”, “*Ortho Home Defense Lawn Insect Killer Granules*”, “*Ortho Home Defense Lawn Insect Killer*”, and “*Ortho Home Defense Insect Killer for Lawns*” has been added to the product record.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you have any questions, you may contact Angela Hollis at 703-347-0216 or via email at hollis.angela@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read 'Kable Bo Davis', enclosed within a large, hand-drawn oval.

Kable Bo Davis, Product Manager 3
Invertebrate and Vertebrate Branch 1
Registration Division (7505P)
Office of Pesticide Programs

CAUTION

Italicized text is information for the reviewer and is not part of the label.

[Bracketed information is optional text]. Text separated by / denotes and/or options.

See side/back [panel][booklet][bag] for additional precautionary statements [and directions for use].

PRECAUTIONARY STATEMENTS [icon][exclamation point]
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Do not get in eyes or on clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

FIRST AID	
If in eyes:	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
HOTLINE NUMBER	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-(800)-225-2883 for Emergency Assistance.	
NOTE TO PHYSICIAN	
This product is a pyrethroid. If large amounts have been ingested, milk, cream, or other digestible fats and oils may increase absorption and so should be avoided. For Information Regarding the Use of this Product Call 1-(800)-225-2883.	

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.

PHYSICAL AND CHEMICAL HAZARDS

Do not mix or allow contact with oxidizing agents. Hazardous chemical reaction may occur.

STORAGE AND DISPOSAL [icon][trash can]

PESTICIDE STORAGE: Keep out of reach of children and animals. Store in original bag/container only. Store in a clean, dry, well ventilated place and avoid excess heat. For bags/containers after partial use, reseal opened bag/container [by folding top down and securing].

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling, if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Apply this product directly to the lawn or garden area or non-hard surfaces around the perimeter of your home. Water treated area as directed on this label. Do not water to the point of run-off. Do not make applications during rain.

Do not apply to hard surfaces such as sidewalks, driveways and streets where the product is likely to wash off into sewers and waterways.

Apply early/proactively [in the Spring/Summer/Fall] to prevent infestation.

[Otherwise, apply when insect activity or damage is first observed in the lawn (lawn thins and turns brown or moths fly from the grass when you mow)

Do not treat just the browned area of lawn. To prevent further damage, treat entire lawn.]

Repeat application is necessary only if there are signs of renewed insect activity.

In New York State, this product may NOT be applied to any grass or turf area (lawns) within 100 feet of a

NOTE:

EPA Reg. No. 239-2726

Italicized text is information for the reviewer and is not part of the label.

[Bracketed information is optional text]. Text separated by / denotes and/or options.

water body (lake, pond, river, stream, wetland, or drainage ditch).

In New York State, do make a single repeat application of this product if there are signs of renewed insect activity, but not sooner than two weeks after the first application.

Do not allow people or pets to re-enter lawn until dry.

Note to PM: Optional text above starting with “Otherwise” to “lawn” will be omitted unless the lawns use site appears on the product label

Note to PM: If ABNS for “Home and Ranch” are used, the additional restriction: “Do not allow animals to graze on treated areas” will appear here.”

Note to PM: The List beginning “Use Ortho Lawn Insect Control to kill and provide 3 month residual control of” will be referred to as Table 1 in the Claims Section. The List beginning “Ortho Lawn Insect Control also kills” will be referred to as Table 2 in the Claims section. When Expanded Kills claims are used the claims section provides instruction on when the “Also Kills” list will appear on the FPL.

[PRODUCT FACTS]

Insects Killed/Controlled for 3 Months

[Table1]

Use Ortho lawn insect control/product name to kill and provide 3 month residual control of:

Aphids	Greenbug		
Ants	Acrobat Allegheny Mound Argentine Big Headed Black Turf Citronella Cornfield	Crazy Ghost Fire Ant Foragers Little Black Odorous Pavement Pyramid	Red Harvester Small Honey Sugar Thief White Footed

sign of insect activity or damage.

HOW TO APPLY/USE

For best results, treated area should be thoroughly watered immediately after application.

On Lawns [Illustration]

- [Using a spreader designed for application of granular materials], uniformly apply 1 to 2 lbs over 1000 sq. ft.

Note to PM: for products packaged in 5lbs or less, spreader language will be optional

- Leave a one-foot wide untreated strip of lawn next to hard surfaces (such as sidewalks and driveways) and sewer drains to prevent potential run-off into sewers and waterways.

[Illustration]

- For season long, (3 month) control, apply 4 lbs of product for every 1000 sq. ft./1 lb of product for every 250 sq. ft.
- [A 10(20)(xx) pound bag will treat up to 10,000(20,000) (xxxx) sq. ft. of lawn]
- [A 5 pound bag will treat up to 5,000 sq. ft. of lawn]
- [For centipedes, millipedes, pavement ants- uniformly apply 4 lbs over a 1,000 sq. ft. area./2 lbs over a 500 sq. ft. area]
- [For mole cricket control, apply 2 to 4 lbs of product over 1000/ ½ to 1 lb over 250 sq. ft. area. For best results, treat in late spring and water thoroughly immediately after application.]
- [For fire ant mounds, apply 1 tablespoon or 3 teaspoons** of granules to the surface of each mound.] [For best results, 1) apply in cool weather, 65 to 80 ° F, in early morning or late evening hours. 2) Avoid disturbing ants. 3) Treat mounds as they appear. 4) Thoroughly water the treated area after application.]

[** Food utensils such as tablespoons/teaspoons must not be used for food purposes after use in measuring pesticide.]

Note to PM: When product is labeled for mound treatment, label must state the following: "Season long (3 month) residual control applies to broadcast treatments only."

On Ornamentals & Flowers [Illustration]

- Apply 0.5 to 1 lb. of product evenly over each 500 sq. ft. area. Repeat if there are signs of renewed insect activity.
- Product can be applied just before planting or after plants emerge.

Vegetable Gardens [Illustration]

- A single application may be applied just prior to planting or after plants emerge and worked into the top 4 to 6 inches of soil. Use 1.0 lb of product for a 500 sq ft area.

Home Foundation/Barrier Treatment [Illustration]

- Evenly apply a 2 foot wide band next to the house/home foundation.
- Use 0.5 to 1.0 lb of product for each 500 sq. ft. (2 ft. x 250 ft.).
- For 3 month control, apply 2 lbs of product for every 500 sq. ft./1 lb of product for every 250 sq. ft. Re-apply after 3 months if necessary.
- [For best results, treated area should be thoroughly watered immediately after application.]

[Ortho lawn insect control can be applied to the vegetables listed below:] [optional table]

CROP	DAYS TO WAIT TO HARVEST
Tomatoes , Sweet corn	1
Artichoke	5
Green peas, sugar snap peas, snow peas, green beans (wax beans, snap beans), dry beans (black-eyed peas, cow pea), cucumber, gourds, muskmelon, pumpkin, squash, and watermelon	3
Broccoli, Chinese broccoli, cabbage, cauliflower, kohlrabi, mustard greens, eggplant, head lettuce, peppers (bell and	7

non-bell)

Note to PM: Models and Application Rate may be changed to reflect Current Product Offerings:

SPREADER SETTING INFORMATION Note to PM: The following are optional formats to present spreader setting information. Appropriate spreader settings, spreader brand names, and coverage will be inserted on Final Printed Label

Note to PM- Spreader settings are optional for products packaged in 5 lbs or less.

SPREADER TIPS/SPREADING TIPS/APPLICATION TIPS				
For best results, Use a Scotts Spreader				
Spreader	Spreader Settings [Covers xxxx sq. ft.]			Directions
	Pounds of product per XX SQ FT			
	XX lb	XX lb	XX lb	
Scotts® AccuGreen® Drop Spreader	XX	XX	XX	[Align hopper arrow with previous wheel track] [to ensure even coverage.] Mow lawn first if grass is tall enough to touch the bottom of the spreader. First apply two header strips. Operate spreader the longest way of the lawn. Overlap wheel marks to ensure uniform coverage. Shut off spreader when you have reached the header strips or stopped.
Scotts Broadcast/Rotary Spreader, Scotts SpeedyGreen®, EdgeGuard®, Scotts Basic™, Standard™, Deluxe™, EdgeGuard®, Lawn Pro®	XX	XX	XX	Shut off spreader anytime you stop. For complete coverage make each pass about five (5) feet from the wheel track so that some overlapping occurs. [For even application, walk at a steady pace slightly overlapping each pass.]

[1 lb/1,000 sq ft is equivalent to 0.5 lb/500 sq.ft.]

[When using other spreaders, calibrate the spreader settings based on the manufacturer's recommendations.]

[Spreader (Application) Tips]

[Spreader settings are approximate. You may need to adjust for proper coverage. Apply header strips. Then apply product in the longest direction of lawn. For best results, use a Scotts® spreader.]

[For best results], use a Scotts spreader/[Use [only] with Scotts spreaders/Scotts products are designed to work with Scotts spreaders.]

EFFICACY CLAIMS

General Kills (*Listed Insects may be any combination of the insects in Table 1 and 2; if insect appears on Table 2 then Table 2 must be present on FPL*)

1. Kills all listed home invading Insects*
2. Kills home invading Insects*
3. Kills insects* by contact
4. Fast Acting [Formula] [against/kills] [any combination of insects*]
5. Starts [killing/to kill/working/to work on] insects* [immediately] ∞ ∞ after watering in/after irrigating
6. Starts [killing/to kill/working/to work on] insects* [immediately] ∞ ∞by/through contact
 - a. Kills insects* [immediately]∞ ∞ after watering in/ after irrigating)
 - b. Kills insects*[immediately]∞ ∞by/through contact
 - c. Starts to kill immediately ∞ ∞ after watering in /after irrigating
7. Kills outdoor pests* in lawns and around homes [and many other lawn insects*]
8. Kills [insects*] by contact
9. [Provides] Contact Kill
10. Kills lawn-damaging insects,* spiders, fleas and ticks.
11. For grub control, apply "Scotts GrubEX_[1] Season-long Grub Control"[insert product name] [anytime] from early April to August [spring to (late) summer].
12. Kills mole crickets
13. Kills (controls) European Crane Fly [Larvae]
14. Kills ticks that may transmit Lyme Disease
15. Kills [insert any combination of insects on label]and many other lawn insects* on label]
16. Kills all insects* [like...insert any combination of insects on label] [that commonly harm flowers/shrubs/listed edibles/listed fruits/listed vegetables/ornamentals/lawns]
17. Kills ants (except pharaoh and carpenter) [and] spiders [and many other insects*]
18. Kills [lawn-damaging] [invading] insects* that cause your lawn to thin and turn brown
19. Kills chinch bugs, mole crickets, cutworms, billbugs, European crane fly larvae, [other lawn damaging/destroying insects*] [by/through contact]
20. Kills insects* [which destroy lawns/ flowers/ listed edibles] [and/or] [which] [annoy people/pets.]
21. Kills above and/& below [the] surface/ground
22. Kills Fleas that may transit Flea Allergy Dermatitis (FAD)/ Flea-Bite Anemia/ Tapeworms/ Haemobartonellosis [to cats/dogs]
23. Kills Fleas that may transit Bartonellosis [to cats/dogs/people]
24. Kills Fleas that may transit Mycoplasma [to cats]
25. Kills Ticks that may transmit Haemobartonellosis/ Anaplasma phagocytophilum [to cats/dogs]
26. Kills Ticks that may transmit Cytauxzoonosis/ Tularemia [to cats]
27. Kills Ticks that may transmit Anaplasma/ Babesiosis/ Ehrlichiosis/ Lyme borreliosis/ Rocky Mountain spotted fever/ Hemoplasmosis/ Mycoplasma [to dogs]

Qualifier: * *Refer to booklet/back panel for [complete] insect lists

Note to PM: If qualifier is not used, then the word "listed" will be inserted before bugs/insects/pests

General Kills with mandatory Table 2 inclusion on FPL (*If any claim from the following list are used any where on a FPL then Table 2 must be present*)

1. Kills [1,2,3...100...120...125...139][over 100...125..130][100...139][up to 139] [+] insects*
2. Kills Insects* [Fleas & Ticks]
3. [Effective in killing] [Fast acting against] insects*, spiders, fleas, and ticks

Qualifier: * *Refer to booklet/back panel for [complete] insect lists

Italicized text is information for the reviewer and is not part of the label.

[Bracketed information is optional text]. Text separated by / denotes and/or options.

Note to PM: If qualifier is not used, then the word "listed" will be inserted before bugs/insects/pests

GENERAL

Kills and Control: (*Listed insects can be any combination of insects from Table 1 and Table 2*)

1. Kills/Controls* [insert any combination of insects][and many other lawn insects*]
2. Kills/Controls* [all] insects [like...insert any combination of insects] [that commonly harm flowers/shrubs/listed edibles/listed fruits/listed vegetables/ornamentals/lawns]
3. Protects/Controls* [against][damaging insects] [any combination of listed use sites]
4. Controls* ants (except pharaoh and carpenter) [any combination of ants from table 1 and table 2], (fire ants), chinch bugs, sod webworms (lawn moth), European crane fly [larvae], fleas, ticks (including ticks that may transmit Lyme Disease), mole crickets and many other lawn insects*
5. Controls* chinch bugs, sod webworms (lawn moth), fleas, ticks (including ticks that may transmit Lyme Disease), and other lawn pests
6. Kills/controls* insects [which destroy lawns/ flowers/ listed edibles] [and/or] [which] [annoy people/kids/pets.]
7. Kills/Controls insects* outdoors [outside] before they can come indoors [inside]
