

OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION

WASHINGTON, D.C. 20460

April 24, 2025

Mandy Slack
Sr. Analyst, Regulatory Affairs
The Scotts Company
PO Box 190
Marysville, OH 43040

Subject: Label Amendment - Registration Review Mitigation for Bifenthrin
Product Name: Ortho T Insecticide Miticide
EPA Registration Number: 239-2728
Application Date: February 19, 2021
Decision Number: 571337
Case Number: 472468

Dear Mandy Slack:

The Agency, in accordance with the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, has completed reviewing all the information submitted with your application to support the Registration Review of the above referenced product in connection with the Bifenthrin Interim Decision, and has concluded that your submission is acceptable. The label referred to above, submitted in connection with registration under FIFRA, as amended, is acceptable.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling and must be used at your next label printing. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

If you have any questions about this letter, please contact Meaghan Robertson by phone at 202-566-0169, or via email at robertson.meaghan@epa.gov.

Sincerely,

A handwritten signature in blue ink that reads "Cathryn Britton". The signature is fluid and cursive, with the first name and last name clearly distinguishable.

This product contains 0.2 lb/gal of Bifenthrin

KEEP OUT OF REACH OF CHILDREN

CAUTION

See [side] [back] [panel] [booklet] for additional precautionary statements.

Do not use inside dwellings. For use around existing structures, not for preconstruction use. For outdoor use only.

Net Contents: 32 fl oz (1 qt) 946 ml / 16 fl oz (1 pt) 473 ml / xx fl oz xx ml

[KEEP OUT OF REACH OF CHILDREN]

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS
CAUTION**

Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wear long sleeved shirt and long pants, shoes, socks, and waterproof gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

FIRST AID	
If swallowed	<ul style="list-style-type: none">• Call poison control center or doctor immediately for treatment advice.• Have person sip glass of water if able to swallow.• Do not induce vomiting unless told to do so by the poison control center or doctor.• Do not give anything by mouth to an unconscious person.
If in eyes	<ul style="list-style-type: none">• Hold eye open and rinse slowly and gently with water for 15-20 minutes.• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.• Call a poison control center or doctor for treatment advice.
If on skin or clothing	<ul style="list-style-type: none">• Take off contaminated clothing.• Rinse skin immediately with plenty of water for 15-20 minutes.• Call a poison control center or doctor for treatment advice.
HOTLINE NUMBER	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-877-465-5161 for Emergency Assistance.	
NOTE TO PHYSICIAN	
This product is a pyrethroid. If large amounts have been ingested, the stomach and intestine should be evacuated. Treatment is symptomatic and supportive. Digestible fats, oils or alcohol may increase absorption and should be avoided.	
For Information Regarding the Use of this Product Call 1-800-225-2883.	

User Safety Recommendations:

- User should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- User should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- User should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

Environmental Hazards

This pesticide is extremely toxic to fish and aquatic invertebrates. Drift and run off from treated areas may be hazardous to aquatic organisms in neighboring areas. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for

the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off of the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems. Care should be used when spraying to avoid fish and reptile pets in/around ornamental ponds. This product is highly toxic to bees exposed to direct treatment of residues on blooming crops or weeds. Do not apply this product or allow to drift to blooming crops if bees are foraging the treatment area.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not allow to enter indoor or outdoor drains. No permita la entrada a desagües internos o externos. Follow proper disposal procedures on this label. Siga las indicaciones del etiquetado para el desecho apropiado del producto.

All outdoor spray applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:

1. Application to pervious surfaces such as soil, lawn, turf, and other vegetation;
2. Perimeter band treatments of 7 feet wide or less from the base of a man-made structure to pervious surfaces (e.g., soil, mulch, or lawn);
3. Applications to underside of eaves, soffits, doors, or windows permanently protected from rainfall by a covering, overhang, awning, or other structure;
4. Applications around potential exterior pest entry points into man-made structures such as doorways and windows, when limited to a band not to exceed one inch;
5. Applications to vertical surfaces (such as the side of a man-made structure) directly above impervious surfaces (e.g., driveways, sidewalks, etc.), up to 2 feet above ground level;
6. Applications to vertical surfaces directly above pervious surfaces, such as soil, lawn, turf, mulch or other vegetation) only if the pervious surface does not drain into ditches, storm drains, gutters, or surface waters.

Note to PM. Statements above may be optional depending upon labeled uses on the market label.
Spot treatments must not exceed two square feet in size (for example, 2 ft. by 1 ft. or 4 ft. by 0.5 ft.).

For soil or foliar applications, do not apply by ground within 25 feet of lakes, reservoirs, rivers, permanent streams, marshes or natural ponds, estuaries and commercial fish farm ponds.

Do not spray the product into fish pools, ponds, streams, or lakes. Do not apply directly to sewers or storm drains, or to any area like a drain or gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur.

Do not allow the product to enter any drain during or after application.

Do not apply directly to impervious horizontal surfaces such as sidewalks, driveways, and patios except as a spot or crack-and-crevice treatment. Do not apply or irrigate to the point of runoff.

Do not make applications during rain.

Do not apply or irrigate to the point of runoff.

Rainfall within 24 hours after application may cause unintended runoff of pesticide application.

Avoid making applications when rainfall is expected before the product has sufficient time to dry (minimum 4 hours).

Do not apply when the wind speed is greater than 15 mph.

Treat surfaces to ensure thorough coverage but avoid runoff.

To treat insects harbored in voids and cracks-and-crevices, applications must be made in such a manner to limit dripping and avoid runoff onto untreated structural surfaces and plants.

Maximum application rate is 22.9 fl. oz. of product per 1000 sq. ft. per application or 32 fl. oz. of product per 1395 sq. ft. (0.2 lb. Bifenthrin per acre per application)

[re-entry icon] Keep people and pets out of treated areas until spray has dried./ People must not enter treated area until spray has dried.

USE RESTRICTIONS

DO NOT treat structures that contain cisterns, wells, French drains or sump systems. Soil in the vicinity of wells, cisterns or ponds must not be treated. For those situations, contact your County Cooperative Extension Agent or consult a commercial pest control service. DO NOT treat soil that is water saturated or frozen, or in any conditions where run-off or movement from the treatment area (site) is likely to occur. DO NOT apply while it is raining. DO NOT use on pets. DO NOT use on edible or ornamental plants. Spray drift onto these plants should be rinsed off immediately with water.

[Ortho T Insecticide Miticide/product name /This product is a high-performance product. Ortho T Insecticide Miticide /this product/ has a long residual, providing up to 16 weeks control of Cockroaches and up to 12 weeks control of other listed pests.]

SHAKE WELL BEFORE USE

[TO CREATE A BARRIER AGAINST] SUBTERRANEAN TERMITES (OUTDOORS)*

Kills and controls subterranean termites. Chemicals used for soil treatment are used to establish a barrier against termites. This product / Ortho T Insecticide Miticide must be adequately dispersed in the soil to provide a barrier between the wood in the structure and the termite colonies in the soil. Barriers may be established in the soil on the outside of the perimeter of the house by trenching using a rate of 4 gallons of Ortho T Insecticide Miticide /this/the product/ per 10 linear feet per foot of depth.

This product helps prevent subterranean termite infestations. If evidence of termite activity is found, contact a licensed pest control operator for treatment. For outdoor residential post-construction use only. DO NOT use under slabs, in crawl spaces or indoors.

*Not in MA, NY & RI.

How to Apply/Use [Mixing Instructions for Termites]

Site Preparation / Trench Treatment [illustration]

- Remove all wood debris and wood forms.

Mix Product [illustration]

[USE A SPRINKLING CAN]

- Add 3.2 fl oz (6 ½ T) to 1 gallon of water for each 2 ½ linear feet*
* 1 quart of Ortho T Insecticide Miticide /this product will make 10 gallons of diluted solution and covers 25 linear feet.

Dig Trench [illustration]

- **Poured concrete foundations:** Dig a trench next to the foundation 6 inches wide and 4 inches deep or down to the top of the footing, whichever is less.
- **Brick and Block Foundations:** Dig trench 6 inches wide and 12 inches deep. If the footing is more than 12 inches deep, make holes with a crowbar, pipe or steel rod about 1 foot apart that extend from the bottom of the trench to the top of the footing. Make holes closer in hard packed clay soils.
- To avoid shifting your house foundation, never dig below the top of the footing.

Pour Half in Trench [illustration]

- Apply half volume of diluted product with a sprinkling can in the trench at a rate of 4 gallons per 10 linear feet per foot of depth.

Pour remaining Half to Backfill [illustration]

- Apply other half [of diluted product] to the backfill as the trench is refilled.

[Optional illustrations may be used in conjunction with the above steps.]

Fence Posts: New Installation [illustration] *picture of sprinkling can and fence post hole*

- Use a sprinkling can. Pour ½ gallon of diluted product into fence post hole and add another ½ gallon to the soil when filling hole so that all of the fill soil is treated to form a protective barrier.

Fence Posts: Existing [illustration] *picture of fence / landscape and line drawn for the barrier*

Create an insecticidal barrier in the soil around wood constructions including signs, fences and landscape ornamentation.

[How To Apply]

- Previously installed poles and posts may be treated by digging a trench 2" to 6" deep around the post, and then making holes to the depth of the post using a pipe or metal rod. Pour the diluted product / emulsion /solution and allow it to gravity-flow through the holes. Treat on all sides to create a continuous insecticidal barrier around the pole. Apply half of the volume of the diluted product / emulsion / solution to the trench and holes. Apply the other half to the backfill as the trench is refilled. *picture of fence posts with trench and sprinkling can*
- **[Amount To Use/How to Use]** Use 1 gallon of diluted product / emulsion / solution per foot of depth for poles and posts less than six inches in diameter.
- For larger poles, use 1.5 gallons of diluted product / emulsion / solution per foot of depth.
- For larger constructions, use 4 gallons per 10 linear feet per foot of depth.

[Optional illustrations may be used in conjunction with the above steps.]

WHEN TO REAPPLY

Reapplication of subterranean termites must only be made when there has been disruption of the chemical barrier in the soil due to construction, excavation, landscaping, etc. Reapplication must be made as a spot treatment to those areas. Do not retreat entire premises.

TO CONTROL LISTED HOME-INVADING PESTS LIKE TERMITES, CARPENTER ANTS, CARPENTER BEES, AND WOOD DESTROYING BEETLES (OUTDOORS)

Ortho T Insecticide Miticide /This product can be used to control listed Home Invading Insect Pests including Termites (excluding subterranean), Ants (including carpenter, red harvester, pavement, odorous pyramid, Argentine and pharaoh), carpenter bees, beetles, box elder bugs, centipedes, chiggers, crickets, earwigs, firebrats, fleas, roaches, house flies, hornets, millipedes, scorpions, silverfish, sowbugs, spiders (including black widow and brown recluse), springtails, ticks, wasps, wood destroying beetles and yellow jackets – **OUTDOORS**.

[HOW TO USE:]

For Home Perimeter Treatment Application:

- Spray a 3 to 10 foot band of soil around the house next to the foundation.
- Also spray the foundation of the house to a height of 2 to 3 feet.
- House siding may be treated if pests including gypsy moth adults and caterpillars, boxelder bugs, elm leaf beetles, earwigs or silverfish are present.

For Use Against Hornets, Wasps and Yellow Jackets:

Application should be made in the late evening when insects are at rest. Aim spray at nest openings in ground, bushes and in cracks and crevices which may harbor nests, saturating nest openings and contacting as many insects as possible.

[HOW TO APPLY/USE] [FOR HOME INVADING PESTS] / [MIXING INSTRUCTIONS][Applicator Directions]

Option #1: Tank Sprayer

[AMOUNT TO USE]

[When using a] tank sprayer:

[Use] 0.5 fl oz (1 T) per gallon of water to be sprayed over 167 sq ft. (1 gallon treats 167 sq ft)

Option #2: Ortho Dial N Spray / Dial N Spray with Direct Connect

[AMOUNT TO USE]

[When using the] [Applicator (Device) (Applicator Name) Directions/Instructions]

[HOW TO USE]

[Set]

- Turn dial to 0.5 fl oz

[Fill]

- Pour 3.2 fl oz of concentrate into sprayer jar.
- Turn sprayer nozzle to preferred spray.
- DO NOT add water.

[Spray]

- Connect [garden] hose to sprayer.
- Turn on water.
- Press and hold trigger for continuous spray.
- Spray evenly over 1,000 sq ft until jar is empty.

[Finish]

- Pour unused concentrate back into its original container.
- To clean, refer to the Ortho Dial N Spray cleaning instructions.

[Optional illustration may be used in conjunction with the above steps.]

AND/OR

[Applicator (Device) (Applicator Name) Directions/Instructions]

HOW TO USE

[Set] [Applicator Name]

- Turn dial to 0.5 fl oz

[Connect]

- Remove jar from [Ortho® Dial 'N Spray®] [applicator name] [applicator/sprayer].
- Remove cap from the concentrate bottle. [Keep cap for storage.]
- Twist [screw] the [Ortho® Dial 'N Spray®] [applicator name] [applicator/sprayer] onto concentrate bottle to attach.
- Connect [garden] hose to the sprayer and turn on water.

[Spray]

- Press and hold trigger for continuous spray. Apply evenly until finished. A 16 fl oz bottle covers 5,300 sq ft.

[Finish]

- Untwist [unscrew] the [product name] concentrate bottle from the [Ortho® Dial 'N Spray®] [applicator name] [applicator/sprayer].
- Replace cap on the [product name] concentrate bottle.
- To clean, refer to the Ortho Dial 'N Spray® cleaning instructions.

Refer to the Ortho® Dial 'N Spray® label and booklet for additional information.

[Optional illustrations may be used in conjunction with the above steps.]

TREATMENT FOR WOOD DESTROYING PESTS (OUTDOORS)

Localized Areas Outdoors: For the control of insects including termites, carpenter ants, and wood infesting beetles (including Old House Borer and Powder Post) in localized areas of infested wood around structures. Apply the product to voids and galleries in damaged wood and in spaces between wooden members of a structure and between wood and foundations where wood is vulnerable.

HOW TO APPLY

Wood Treatment Application

- **Fences and Outdoor Wood Surfaces of Buildings**
 - Use a Dial 'N Spray® [hose end], or tank sprayer.
 - Apply evenly on wood surfaces.
 - Allow to dry and repeat to ensure the insecticide soaks into the wood.
- **Wood Piles and Stored Lumber:**
 - Use a Dial 'N Spray® [hose end], or tank sprayer .
 - Deliver a coarse drenching spray.
 - Treated wood can be burned or used for building one month after treatment.

[MIXING INSTRUCTIONS][Applicator Directions]

Option #1: Tank Sprayer

[AMOUNT TO USE]

[When using a] tank sprayer:

[Use] 0.5 fl oz (1 T) per gallon of water to be sprayed over 167 sq ft. (1 gallon treats 167 sq ft)

Option #2: Ortho Dial N Spray / Dial N Spray with Direct Connect

[AMOUNT TO USE]

[When using the] [Applicator (Device) (Applicator Name) Directions/Instructions]

[HOW TO USE]

[Set]

- Turn dial to 0.5 fl oz

[Fill]

- Pour 3.2 fl oz of concentrate into sprayer jar.
- Turn sprayer nozzle to preferred spray.
- DO NOT add water.

[Spray]

- Connect [garden] hose to sprayer.
- Turn on water.
- Press and hold trigger for continuous spray.
- Spray evenly over 1,000 sq ft until jar is empty.

[Finish]

- Pour unused concentrate back into its original container.
- To clean, refer to the Ortho Dial N Spray cleaning instructions.

[Optional illustrations may be used in conjunction with the above steps.]

LAWN PESTS (OUTDOORS)

[For] above ground insects including armyworms, chiggers, chinch bugs, clover mites, crickets, cutworms, dichondra flea beetles, earwigs, fleas, grasshoppers, sod webworms, ticks - **OUTDOORS.**

[For] below ground insects including mole crickets and European crane flies – **OUTDOORS.**

HOW TO APPLY

- Measure lawn. Calculate square feet by multiplying length times width. ***[walking man icon]***
- Spray evenly over measured area. Treat entire lawn.

How to Apply/Use [For Lawn Pests] [MIXING INSTRUCTIONS][Application Directions]

Option #1: Tank Sprayer **AMOUNT TO USE**

[When using a] tank sprayer:

[Use] 0.5 fl oz (1 T) per gallon of water to be sprayed over 167 sq ft. (1 gallon treats 167 sq ft)

Option #2: Ortho Dial N Spray / Dial N Spray with Direct Connect

[When using the] [Applicator (Device) (Applicator Name) Directions/Instructions]

HOW TO USE

[Set]

- Turn dial to 0.5 fl oz

[Fill]

- Pour 3.2 fl oz of concentrate into sprayer jar.
- Turn sprayer nozzle to preferred spray.
- DO NOT add water.

[Spray]

- Connect [garden] hose to sprayer.
- Turn on water.
- Press and hold trigger for continuous spray.
- Spray evenly over 1,000 sq ft until jar is empty.

[Finish]

- Pour unused concentrate back into its original container.
- To clean, refer to the Ortho Dial N Spray cleaning instructions.

[Optional illustrations may be used in conjunction with the above steps.]

WHEN TO REAPPLY

- Repeat application is necessary only if there are signs of renewed insect activity. Repeat application must be limited to no more than once per seven days.

In New York State, this product may NOT be applied to any grass or turf area within 100 feet of a water body (lake, pond, river, stream, wetland or drainage ditch).

In New York State, do make a single repeat application of Ortho T Insecticide Miticide /this product if there are signs of renewed insect activity, but not sooner than two weeks after the first application.

MOSQUITOES (OUTDOORS)

Mosquitoes coming to rest on areas treated for the control of lawn and home-invading pests will be killed for varying periods of time after application, depending on exposure of treated areas to environmental conditions.

[FOR] ANT AND FIRE ANT MOUNDS USE ORTHO T INSECTICIDE MITICIDE [THE PRODUCT] AS A DRENCH METHOD

Apply 1-2 gallons of diluted product / emulsion / solution to each mound area by sprinkling the mound until it is wet and treat a 4 foot diameter circle around the mound. Use the higher volume for mounds larger than 12". For best results, apply in cool weather, such as in early morning or late evening hours, but not in the heat of the day. Treat new mounds as they appear.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Keep out of reach of children and animals. Store in original containers only. Protect from freezing. Store in a cool, dry place, preferably in a locked storage area and avoid excess heat. Carefully open containers. After partial use, replace lids and close tightly. Do not put concentrate or diluted material into drink containers.

PESTICIDE CONTAINER HANDLING: **If empty:** Nonrefillable. Do not reuse or refill this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor (including toilet) or outdoor (including sewer) drain.

Notice: To the extent consistent with applicable law, buy assumes all risks or use, storage or handling of this product not in accordance with directions.

Ortho & Your Environment: Your yard is a place for family and pets to enjoy. That's why Ortho products are designed with care to provide effective solutions to pest problems. For best results and a healthy environment, please follow instructions for appropriate use, storage and disposal.

Ortho Guarantee: If for any reason you, the consumer, are not satisfied with this product, mail us your original proof of purchase to obtain a full refund of your purchase price.
