

U.S. ENVIRONMENTAL PROTECTION AGENCY
 Office of Pesticide Programs
 Registration Division (7505P)
 1200 Pennsylvania Ave., N.W.
 Washington, D.C. 20460

EPA Reg. Number:

239-2740

Date of Issuance:

11/21/17

NOTICE OF PESTICIDE:

Registration
 Reregistration
 (under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

WHITEOUT RTS

Name and Address of Registrant (include ZIP Code):

Mandy Slack
 The Scotts Company d/b/a/ The Ortho Group
 P.O. Box 190
 Marysville, Oh 43040

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Kathryn Montague, Product Manager 23
 Herbicide Branch, Registration Division (7505P)

Date:

11/21/17

2. You are required to comply with the data requirements described in the DCI identified below:
 - a. Topramezone GDCI-123009-1578

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI listed above, you may contact the Chemical Review Manager in the Pesticide Reevaluation Division: <http://iaspub.epa.gov/apex/pesticides/f?p=chemicalsearch:1>

3. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, “EPA Reg. No. 239-2740.”
4. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 03/16/2017
- Alternate CSF A dated 03/16/2017
- Alternate CSF B dated 03/16/2017

If you have any questions, please contact Grant Rowland by phone at 703-347-0254, or via email at rowland.grant@epa.gov.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse. Keep away from children.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-225-2883 for emergency medical treatment information.

ENVIRONMENTAL HAZARDS:

This product is toxic to plants. Drift and run-off may be hazardous to plants in water adjacent to treated areas. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow pesticide off the treatment area. Rinsing application equipment over the treated area will help to avoid run off to water bodies or drainage systems.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read and follow label instructions. Shake well before use.

Restrictions:

- **DO NOT** enter or allow people or pets to enter the treated area until spray has dried.
- **DO NOT** apply to bahiagrass, bermudagrass, buffalograss, carpetgrass, clover (desirable), creeping bentgrass, dichondra, St. Augustinegrass (including Floratam), seashore paspalum or zoysiagrass.
- **DO NOT** apply this product in a way that will contact people either directly or through drift, or if winds speeds are greater than 10 mph.
- **DO NOT** apply more than 2X / year.
- **DO NOT** apply more than 6.4 fl oz per 1000 sq ft per application.
- **DO NOT** apply more than 12.8 fl oz per 1000 sq ft per year.
- **DO NOT** mow 2 days before to 2 days after applying.
- **DO NOT** irrigate or apply if rain is expected within 24 hrs/hours of applying.
- **DO NOT** apply for 28 days after seeding of tolerant turfgrasses.
- **DO NOT** apply to drought stressed lawns and/or drought stressed weeds, exposed feeder roots of trees or ornamentals, or within the dripline of trees and other ornamental plants, or within ornamental beds, or to areas where runoff into those areas is likely to occur.
- **DO NOT** apply to golf course collars or greens.
- **DO NOT** use clippings as mulch around flowers, ornamentals, trees or in vegetable gardens.
- **DO NOT** apply an OP (such as malathion) or carbamate insecticide (such as carbaryl) within 1 week of applying WhiteOut RTS/this product or lawn injury may result.

Bold, italicized text is information for the reader and is not part of the label.

[Bracketed information is optional text]. Text separated by / denotes and/or options.

HOW IT WORKS/PRODUCT INFORMATION

- WhiteOut RTS/this/the product kills existing weeds.
- WhiteOut RTS/this/the product enters weeds through leaves, roots and shoots and moves to the growing points of target weeds. Whiteout RTS/this/the product works by stopping plant pigment production, causing treated weeds to turn white and stop growing. Affected weeds turn brown and are controlled.

WHERE TO APPLY/USE:

- Apply WhiteOut RTS/this/the product to Kentucky bluegrass, fine fescue, perennial ryegrass and tall fescue

HOW MUCH TO USE/APPLY:

- One 32 fl oz/1 quart bottle covers 5,000 sq ft.

WHEN TO APPLY/USE:

- Apply this product to actively-growing weeds (during the early growth stages for the best results).
- Apply when daytime temperatures are between 45° and 90° F.
- WhiteOut RTS/this/the product may be applied before seeding of tolerant turfgrasses, including day of seeding.

WEEDS CONTROLLED / KILLS WEEDS INCLUDING:

Barnyardgrass Crabgrass, southern Foxtail, giant Goosegrass Nimblewill* Signalgrass, broadleaf	Crabgrass, large Cupgrass, wooly Foxtail, green Johnsongrass, seedling Panicum, fall Stiltgrass, Japanese	Crabgrass, smooth Dallisgrass* Foxtail, yellow Millet, wild proso Shattercane
---	--	---

*Control requires a second application of WhiteOut RTS/this/the product after 3-4 weeks.

HOW TO USE/APPLY:

Option 1 - Ready-Spray II

[Applicator] [Device] [Applicator Name] Directions/Instructions

HOW TO USE/APPLY:

Connect:

1. Connect sprayer to [garden] hose.
2. Turn on water.

[User Tip: Start at the farthest point and work back.]

Spray:

1. [Remove tamper evident band/strip/seal]
2. To BEGIN spraying, [Bend small plastic tab back and] move/turn/rotate/slide [color] switch/knob/lever/slider to ON [position].

Bold, italicized text is information for the reader and is not part of the label.

[Bracketed information is optional text]. Text separated by / denotes and/or options.

3. One 32 fl oz/1 quart bottle covers 5,000 sq ft.
4. Spray only until the weeds being treated are wet. / Spray evenly.
5. [Spray as directed in the [How Much to Use]/[Section Header] [instructions]

Finish:

1. To STOP spraying move/turn/rotate/slide [color] switch/knob/lever/slider to OFF [position].
2. Turn off water.
3. Relieve water pressure by moving/turning/rotating/sliding [color] switch/knob/lever/slider to ON/WATER [position].
4. After water slows to a drip, move / turn / rotate / slide [color] switch /knob /lever / slider [back] to OFF [position].
5. Disconnect sprayer from [garden] hose.

Option 2 - Ready-Spray

[Applicator] [Device] [Applicator Name] Directions/Instructions

HOW TO USE/APPLY:

Connect:

- Connect/Attach/Sprayer/bottle to end of hose
- Turn on water
- Extend hose to farthest area to be treated

Spray:

- [Remove tamper evident band/strip/seal]
- To begin spraying, [disengage safety lock and] point nozzle in the direction you want to spray.
- One 32 fl oz/1 quart bottle covers 5,000 sq ft.
- Slide thumb activation switch forward to ON position.
- Spray evenly over measured area
- Allow to soak into ground, avoiding runoff to nearby desirable plants.

Finish:

- To STOP spraying, slide thumb activation switch backward to OFF position.
- Turn off water.
- Relieve water pressure by sliding thumb switch to ON [WATER] [WATER ONLY] position until water slows to a drip. Then, slide switch back to OFF position [and engage safety lock].
- Disconnect the sprayer from hose.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store product in original container in a safe place. Protect from freezing.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste disposal agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
