

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs  
Registration Division (7505P)  
1200 Pennsylvania Ave., N.W.  
Washington, D.C. 20460

EPA Reg. Number:

239-2781

Date of Issuance:

11/15/21

NOTICE OF PESTICIDE:

Registration  
 Reregistration  
(under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

GC SLWK

Name and Address of Registrant (include ZIP Code):

The Scotts Company  
14111 Scottslawn Road  
Marysville, OH 43041

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Product Manager 24  
Fungicide and Herbicide Branch  
Registration Division (7505P)

Date:

11/15/21

2. Make the following label changes before you release the product for shipment:
  - Revise the EPA Registration Number to read, “EPA Reg. No. 239-2781.”
3. Submit one copy of the revised final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 12/04/2020
- Alternate CSF A-D dated 12/04/2020

If you have any questions, please contact Marc Sheahin by phone at 202-566-2896, or via email at [sheahin.marc@epa.gov](mailto:sheahin.marc@epa.gov).

EPA Reg. No. 239-NEW

# GC SLWK

**ACTIVE INGREDIENTS:**

Pelargonic Acid ..... 5.000%

Imazapic, ammonium salt ..... 0.085%

**OTHER INGREDIENTS:** ..... 94.915%

**TOTAL:** ..... 100.000%

**THIS PRODUCT CONTAINS:**

0.007 lb imazapyr acid equivalent per gallon or 0.08%

0.417 lb pelargonic acid and related fatty acids per gallon

**KEEP OUT OF REACH OF CHILDREN**

## WARNING

See [back] [side] [other] [panel] [booklet] for additional precautionary statements.

**NET CONTENTS:**      XX FL OZ (X GAL/QT/PT) XX [L/mL]

***Bold, italicized text is information for the reader and is not part of the label.***

[Bracketed information is optional text]. Text separated by / denotes and/or options.

## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS & DOMESTIC ANIMALS

**WARNING:** Causes substantial but temporary eye injury. Do not get in eyes or on clothing. Wear safety glasses when using this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

FIRST AID
<b>IF IN EYES:</b> Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-877-465-5161 for emergency medical treatment information.

### ENVIRONMENTAL HAZARDS:

This product is toxic to plants. Drift and run-off may be hazardous to plants in water adjacent to treated areas. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow pesticide off the treatment area. Rinsing application equipment over the treated area will help to avoid run off to water bodies or drainage systems.

**NON-TARGET ORGANISM ADVISORY:** This product is toxic to plants and may adversely impact the forage and habitat of non-target organisms, including pollinators, in areas adjacent to the treated site. Protect the forage and habitat of non-target organisms by following label directions intended to minimize spray drift.

**GROUNDWATER ADVISORY:** This chemical has properties and characteristics associated with chemicals detected in groundwater. This chemical may leach into groundwater if used in areas where soils are permeable, particularly where the water table is shallow

**SURFACE WATER ADVISORY:** This product may impact surface water quality due to runoff of rain water. This is especially true for poorly draining soils and soils with shallow ground water. This product is classified as having high potential for reaching surface water via runoff for several months or more after application.

A level, well-maintained vegetative buffer strip between areas to which this product is applied and surface water features including ponds, streams, and springs will reduce the potential loading of imazapic from runoff water and sediment. Runoff of this product will be reduced by avoiding applications when rainfall or irrigation is expected to occur within 48 hours.

***Bold, italicized text is information for the reader and is not part of the label.***

[Bracketed information is optional text]. Text separated by / denotes and/or options.

## DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

### Restrictions

- **DO NOT** apply this product in a way that will contact any person, pet, either directly or through drift.
- **DO NOT** spray plants or grasses you like - they will die.
- **DO NOT** use in lawns or for lawn renovation as this product kills and prevents desirable grasses from growing too.
- **DO NOT** use for vegetable garden preparation or in and around fruits and vegetables.
- **DO NOT** spray landscaped areas around young plants or in an area that will be planted or seeded within 6 months.
- **DO NOT** spray next to a fence if desirable plants and grasses are growing on the other side.
- **DO NOT** apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application.
- Wait at least 3 months before spraying a previously treated area unless new weeds appear, then re-spray the area as needed, but not exceeding 2 applications per year.
- The maximum single application rate is 24 fl oz per 300 sq ft (0.2 lb imazapic acid equivalent and 12.1 lb pelargonic acid per acre per application).
- The maximum number of applications is limited to 2 per year (0.4 lb imazapic acid equivalent and 24.2 lb pelargonic acid per acre per year).
- The maximum application rate is 48 fl oz per 300 sq ft (0.4 lb imazapic acid equivalent and 24.2 lb pelargonic acid per acre per year).

### HOW IT WORKS/PRODUCT INFORMATION

- GC SLWK/this/the product kills existing [weeds] [and] [grasses] and prevents/stops [new weeds from growing/regrowth] for up to 6 months.
- GC SLWK/this/the product is intended for use in areas where no vegetation is desired for up to 6 months, including driveways, mulched [landscaped] areas, along fences, sidewalks, walkways, patios, curbs, gutters and even cracks in sidewalks.
- GC SLWK RTU/this/the product is not for use on lawns, on or around fruits, vegetables, flowers, trees, shrubs, or other plants, or over the root zones of desirable vegetation.

***Bold, italicized text is information for the reader and is not part of the label.***

[Bracketed information is optional text]. Text separated by / denotes and/or options.

### WHERE TO APPLY/USE:

- Apply [GC SLWK/this/the product] only in areas where you wish to kill existing weeds [and/or] prevent future weed growth for up to 6 months, including:
  - On cracks and crevices in driveways, sidewalks, walkways and patios
  - Along fences, foundations, retaining walls and curbs
  - In mulched beds or around the base of **well-established** (at least 6 months old) plants, shrubs or trees
  - Gravel areas
  - On parking areas and under decks

### HOW TO APPLY/USE:

- Apply [GC SLWK/this/the product] using a tank sprayer. Follow [the] [directions] in the Mixing Instructions section to [prepare/prime] the sprayer.
- Spray existing weeds **AND the entire surrounding weed-prone area** you want to keep weed free for up to 6 months. Spray the area until **thoroughly wet**.
- When treating around the base of **well-established** (at least 6 months old) desirable plants, shield the plants from drift with a sheet of cardboard or plastic. If desirable plants are accidentally sprayed, rinse off immediately with water.

### MIXING INSTRUCTIONS:

#### [Tank Sprayer:]

- Add 24 fl oz of product per gallon of water. This rate will apply 0.2 lb imazapic ae/acre, and 12.1 lb pelargonic acid per acre.
- Each gallon covers 300 sq ft.

### WHEN TO APPLY/USE:

- Apply to [unwanted] actively growing weeds [and grasses], or to bare soil where plant growth is not desired.
- For best results, apply during warm, sunny weather above 60°F.
- If weeds are taller than 6 inches, they need to be cut down and removed before application.
- Apply when the air is calm to avoid drift to desirable plants.
- Rain or watering at least 1 hour after application will NOT wash away effectiveness.

### WHEN TO REPLANT:

All ornamental bedding plants (annuals and perennials), trees, shrubs, sod and seed can be planted 6 months after application.
