CAUTION!  
KEEP AWAY FROM CHILDREN  
See Below For Additional Cautions and Warnings

Net Contents:

DIRECTIONS FOR USE

Apply spray to the animal from a distance of 12 to 13 inches. Start spraying at the tail, moving the dispenser rapidly and making sure the animal's entire body is covered, including the legs and under the body. As you spray, fluff the hair so that the spray will penetrate into the fur. Make sure spray wets ticks. Spray on the basis of a 20-30 second application to a 25-pound animal. Repeat treatments, if necessary, should not be more often than once weekly. Do not spray into the eyes, face or scrotum. Do not overspray.

ACCEPTED WITH COMMENTS

CAUTION!

Harmful if swallowed. Avoid prolonged or repeated breathing of spray mist. Do not contaminate food or feed products

WARNING!

Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130° F. may cause bursting. Never throw container into fire or incinerator.
