CAUTION

KEEP OUT OF REACH OF CHILDREN
Harmful if Swallowed.
Avoid prolonged breathing of spray mist.
Avoid prolonged or repeated contact with skin.
Wash thoroughly after handling.
Avoid contamination of feed and foodstuffs.
Keep away from heat, sparks and open flame.

DIRECTIONS FOR USE

ACCEPTED WITH COMMENTS

For the protection of grapes (raisins) against the raisin moth, dried fruit beetle and vinegar fly during drying in the field, and for protection against the Indian meal moth and saw-toothed grain beetle during storage, apply 1/2-1 fluid ounce of Malathion (emulsifiable concentrate) per 144 square feet of paper used as drying trays (100-200 mg. actual malathion per square foot).

Raisins should be screened to remove dead insects and any other debris before storing.

Such treatment will protect raisins in storage for six months.

American Cyanamid Company warrants only that the material contained herein conforms to the chemical description on the label and is reasonably fit for the use therein described when used in accordance with the directions for use.

American Cyanamid Company makes no other express or implied warranty, including any other express or implied warranty of fitness or of MERCHANTABILITY.
