DANGER — POISON — PRECAUTIONS

CAN KILL YOU IF SWALLOWED

This product can kill you if swallowed even in small amounts: spray mist may be fatal if swallowed.

CAN KILL YOU BY SKIN CONTACT

This product can kill you if touched by hands or spilled or splashed on skin, in eyes or on clothing (liquid goes through clothes).

CAN KILL YOU IF BREATHED

This product can kill you if vapors or spray mist are breathed.

PROTECTIVE CLOTHING AND EQUIPMENT

Wear clean rubber gloves, goggles and clean waterproof or freshly-laundered clothing and replace gloves frequently.

Wear a mask or respirator of a type passed by the U.S. Bureau of Mines. If handled indoors, provide mechanical exhaust ventilation.

Firefighters should use self-contained breathing apparatus and water.

PRECAUTIONARY MEASURES

Do not get in eyes, on skin, on clothing.

Do not breathe vapor or mist.

Wash thoroughly before eating or smoking or using the toilet.

Bathe immediately after work and change all clothing.

In case of contact, immediately flush eyes or skin with plenty of water. Remove contaminated clothing and shoes. Wash clothing before reusing.

Remove unauthorized persons from operating area.

ANTIDOTE, FIRST AID AND MEDICAL INFORMATION

ANTIDOTE: Atropine is an antidote. Consult your physician about (0.6 milligram) tablets for emergency use. If symptoms include tightness in chest, don't wait for a physician but take two tablets if symptoms of poisoning have occurred. Anyone who has been given atropine should be given it as soon as possible.

FIRST AID: If swallowed, induce vomiting by sticking finger down throat. Drink salty water to drink. Repeat until vomit is clear. Never give anything if unconscious. If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen.

In case of contact, immediately flush eyes or skin with plenty of water. Remove contaminated clothing and shoes. Wash clothing before reusing.

CALL A PHYSICIAN AT ONCE IN ALL CASES OF SUICIDE ATTEMPT.

NOTE TO PHYSICIANS

Warning symptoms include weakness, headache, tightness of chest, blurred vision, dilated pupils, salivation, sweating, nausea, vomiting, diarrhea and abdominal pain. Give 1 to 2 mg (1 to 2 tablets) intravenously, depending on severity of poisoning, 1 to 2 mg (1 to 2 tablets) every 15 minutes until fully atropinized as shown by cessation of sweating and tachycardia. Twenty to thirty milligrams, or more, may be required. Do not give opiates or phenothiazine tranquilizers. Clear chest by postural drainage. Intubation and mechanical ventilation may be necessary. Observe patient continuously. Do not give any cholinesterase inhibitor until cholinesterase reagent test is negative by blood tests.

Pralidoxime chloride (2-PAM; PROTOPAM chloride) may be effective if given according to label directions.

HANDLING AND STORAGE

Do Not Contaminate Food or Feed Products.

Keep away from heat and open flame. Keep container closed. Use with adequate ventilation. Store in original container.

Highly toxic to fish and wildlife. Do not contaminate any body of water.

FIRE FIGHTING

Wear impervious clothing and self-contained breathing apparatus.

EVACUATE people downwind of fire. Avoid working downwind of fire.

Avoid heavy hose streams.

HOT CONTAINERS MAY EXPLODE — Keep a safe distance from fire in which these are present.

Dike area of fire to prevent pesticide runoff.

Decontaminate area before reuse.

SPILLS AND LEAKAGE

Isolate area and dike to prevent runoff.

Wear complete protective clothing — rubber gloves, rubber boots, coveralls, cap, etc.

Absorb spilled liquid in soda ash, clay, sweeping compound, etc., and transfer to container for disposal by burial.

Decontaminate area of spill.

DECONTAMINATION

Areas of leakage or spillage: Scrub with full-strength chlorine bleach solution followed by water wash. Repeat several times. Bury washes. Wooden floors of transportation equipment are difficult to decontaminate and should be replaced.

DISPOSAL OF DRUMS: Drain drum completely. Add 5 gallons of water, 1 cup of detergent and 2 pounds of lye. Tighten bungs. Rotate drum to wet all surfaces and let stand for at least 15 minutes. Drain completely and rinse several times with water. Tighten bungs. Transport to a professional drum reconditioner having burning equipment for reconditioning.
