

DIRECTIONS FOR USE

Do not use this product for any uses other than those specified on this label.

Crop	Pest Controlled	Rate	Remarks
Oranges and Tangerines (Bearing)— (Arizona and California)	Thrips	Ground equipment: 1½ pts. per acre in 200 gals. of water. Apply as a mist spray. Air equipment: 1½ pts. per acre in 15 to 20 gals. of water.	This product is for application at pre-bloom or at petal fall only after mature fruit has been harvested. This product should not be applied to any varieties of citrus when immature or mature fruit are present during pre-bloom and petal fall. Do not apply during the bloom period.
Oranges and Tangerines (Nonbearing)— (Arizona and California)	Thrips	Ground equipment: 1½ pts. per acre in 200 gals. of water. Air equipment: 1½ pts. per acre in 15 to 20 gals. of water.	Apply when insect injury to new growth appears.

RINSE/DRAIN PROCEDURE:

- (1) Drain container into spray tank (after normal emptying) in a vertical position for 30 seconds.
- (2) Rinse carefully 3 times with 1 gallon of water for each rinse for a 5-gallon pail and drain into spray tank after each rinse.
- (3) Do not reuse container.

DISPOSAL OF PAILS: Drain pail completely. Add ½ gallon water, ¼ cup of detergent and ¼ pound of lye. Tighten closure. Rotate pail to wet all surfaces and let stand for at least 15 minutes. Drain completely (not into sprayer tank) and rinse several times with water. Bury rinse solution at least 18 inches deep in an isolated area away from water supplies. Tighten closure. Puncture and crush pail to prevent reuse. Bury deeply in an isolated location with 18 inches of cover.

In case of an emergency endangering life or property involving this product, call collect, day or night, Area Code 201-835-3100.
