OBSERVE ALL PRECAUTIONS AND LIMITATIONS ON THE PENTAGON DG LEAFLET LABEL. SEE THE PENTAGON DG LEAFLET FOR APPLICATION INFORMATION AND WEED SPECIES CONTROLLED.

DIRECTIONS FOR USE

BEST AVAILABLE COPY

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Refer to the PENTAGON DG leaflet label for Chemigation instructions. **DO NOT** apply PURSUIT through any type of irrigation system.

PENTAGON DG may be surface applied or incorporated for soybean weed control in the fall when followed by a postemergence program using PURSUIT herbicide the following spring. Apply PENTAGON DG between October 1 and December 31 for soybeans grown north of Interstate Highway 80 (I-80) at the following rates:

Broadcast Rate Per Acre of PENTAGON DG

Soil Texture	PENTAGON DG (lbs)
Coarse	1.25
Medium	1.7
Fine	2.5

For situations where incorporation is desired, consult the PENTAGON DG leaflet label for incorporation instructions. Consult the PURSUIT label for PURSUIT herbicide application instructions and precautions.

Roundup¹, 2, 4-D, Butyrac² 200 (2,4-DB), or paraquat should be used to kill existing vegetation, if present before planting. Fall application of PENTAGON DG is not recommended on fields that are poorly drained or are subject to periods of flooding.

OBSERVE ALL PRECAUTIONS, LIMITATIONS, AND CROPPING RESTRICTIONS ON THE PRODUCT LEAFLET LABELS. ALWAYS FOLLOW THE MOST RESTRICTIVE LABEL.

This label must be in the possession of the user at the time of herbicide application.
